Appendix 8.E: PEIMS Additional Information Related to Discipline	8.E.1

FOREWORD

The collection of Public Education Information Management System (PEIMS) data is required of all Local Education Agencies (LEAs) by TEC §42.006. The *PEIMS Data Standards* provide instructions regarding the submission of PEIMS data from LEAs to the Texas Education Agency.

The 2013-2014 standards:

- Describe the PEIMS data reporting requirements;
- Provide descriptions of data elements and the codes used to report them;
- Detail the responsibilities of local education agencies, education service centers, and the Texas Education Agency in connection with the data collection process; and
- Provide descriptions of the data collection requirements, including collection record layout specifications and data edit specifications.

The *PEIMS Data Standards* is for all persons involved in the PEIMS data collection process, including school administrators, special program personnel, data control personnel, data processing staff, service center coordinators, and others. The *PEIMS Data Standards* is for data delivery only. It should not be construed to represent the format of data available for retrieval from the PEIMS database.

Commissioner of Education

PREFACE

A description of the contents for each section of the *2013-2014 TEDS PEIMS Data Standards* follows.

Section 8.1: Data Submission Specifications and Responsibilities

This section provides a general description of PEIMS. It specifies the as-of and due dates for the four data collections. It also includes a discussion of the various responsibilities of the local education agencies, education service centers, and the Texas Education Agency.

Section 8.2: Data Submission Requirements

This section includes a chart of the data file layouts, a chart of the complex types by category, a description of each complex type in the Ed-Fi Core and Texas Core Extension schemas used for PEIMS, the business rules, reporting requirements and data samples.

Section 8.3: Description of Data Elements

This section provides an explanation of the information on each data element page, an alphabetical list of the data elements, and a detailed description of each data element by complex type.

Section 8.4: Description of Codes

This section provides an explanation of the information on each code table definition page, an alphabetical list of the code tables, and a listing of the codes and translations by table.

Section 8.5: Business Rules and Validations

This section provides the data element business rules and validations. Edits that were for 2012-2013 category types have been revised, as needed. Additional business rules and validations to check for the reasonableness of the data have been included. These additional business rules and validations are based on the analysis of problems or discrepancies in previously submitted PEIMS data. There are three types of edits: fatal errors, special warning errors, and warning errors.

Section 8.6: PEIMS XML Reporting Guidelines

This section illustrates the requirements for reporting the Fall, Mid-Year, Summer, and Extended Year XML data submissions.

Section 8.7: Ed-Fi Core and Texas Core Extension Schemas

This section includes the entire Ed-Fi Core and Texas Core Extension schemas. Individual interchange schemas reference a subset of the complex types defined in the Ed-Fi Core and Texas Core Extension schemas.

Section 8.8: PEIMS Interchange Schemas

This section includes the individual PEIMS interchange schemas and their definitions. These interchange schemas will be used to load data into the EDW.

Appendix 8.A

This appendix provides a high level overview of the data to be collected by category.

Appendix 8.B

This appendix provides an alphabetical list of data elements and complex types required for the PEIMS collections.

Appendix 8.C

This appendix includes list of data elements and Complex Types Sorted by element ID required for the PEIMS collections.

Appendix 8.D

This appendix provides an expanded definition and specific guidelines on acceptable documentation for each of the leaver reason codes.

Appendix 8.E

This appendix contains additional information related to discipline.
