Student Grade Interchange	2
Student Program Interchange	2
Shared Services Arrangement Interchange	2
Finance Interchange	2
Student Restraint Interchange	2

INTERCHANGE SCHEMAS

Interchange schemas are built from the reusable types of the Ed-Fi Core and Texas Core Extension interchange library.

The following interchange schemas will be used for loading data to the Education Data Warehouse (EDW).

Education Organization Interchange

The interchange schema for Education Organization can be used to exchange organizational information about a state's education agencies, from campus to Local Education Agency to Education Service Center to State Education Agency. In addition, the interchange (optionally) supports the definition of the education offerings provided by campuses, specifically the courses taught, the sections in each course offered and the class period and location of those sections, and the alternative/supplemental programs offered.

PEIMS Collection: 1, 2, 3, 4

[Open Education Organization Interchange Schema](#)

Master Schedule Interchange

The interchange schema for the Master Schedule is for education organization's education course offerings schedule.

PEIMS Collection: 1, 3

[Open Shared Master Schedule Interchange Schema](#)

Student Interchange

The interchange schema for Student information can be used when only student identification, characteristic, and demographic information is required to be exchanged. The Student information includes identifiers, name sex, ethnicity and race, birth data and contact information. In addition, flags are included for economically disadvantaged, school food service eligibility, and limited English proficiency. Information is included regarding the student's home situation, language(s), displacement status, and disabilities.

PEIMS Collection: 1, 3, 4

[Open Student Interchange Schema](#)

Student Enrollment Interchange

The interchange schema for Student Enrollment information can be used to exchange campus enrollments and/or enrollments in specific class sections.

PEIMS Collection: 1, 3

[Open Student Enrollment Interchange Schema](#)

Staff Association Interchange

The interchange schema for Staff Association information can be used to exchange a wide variety of personnel, demographic, employment, assignment, teaching, and attendance information about staff of education organizations.

PEIMS Collection: 1, 3

[Open Staff Association Interchange Schema](#)

Student Attendance Interchange

The interchange schema for Student Attendance information can be used to exchange daily attendance or class-level attendance. The interchange schema can be used in cases where just absences are reported, or where both attendance and absences are reported.

PEIMS Collection: 3

[Open Student Attendance Interchange Schema](#)

Student Discipline Interchange

The interchange schema for Student Discipline can be used to exchange discipline incidents and discipline actions. The exchange may be used to exchange student discipline data for student records or longitudinal analysis or used to exchange anonymous discipline data.

PEIMS Collection: 3

[Open Student Discipline Interchange Schema](#)

Student Grade Interchange

The interchange schema for Student Grade information can be used to exchange a wide range of grade information. The schema can be used to exchange a complete academic record, select transcript information, report card grades for a grading period, or end-of-year report card or graduation associated with a student.

PEIMS Collection: 3

[Open Student Grade Interchange Schema](#)

Student Program Interchange

The interchange schema for Student Program information can be used to exchange students' participation in programs. The interchange includes extensions for Bilingual, English as a Second language (ESL), Extended Year Services (ESY), Special Education, Career and Technical Education (CTE), Supplemental Services, and Title I Part A programs.

PEIMS Collection: 1, 3, 4

Shared Services Arrangement Interchange

The interchange schema for Shared Services Arrangement is used to exchange the education organization to which another education organization (fiscal agent) provides services.

PEIMS Collection: 1, 2

[Open Shared Services Arrangement Interchange Schema](#)

Finance Interchange

The interchange schema for Finance information is used to exchange financial data such as actual, budget, and shared services arrangement actual.

PEIMS Collection: 1, 2

[Open Finance Interchange Schema](#)

Student Restraint Interchange

The interchange schema for Student Restraint is used to exchange the student restraint events.
