Campus Course Section Category Type

This Campus Course Section Category represents the student-teacher classroom link.

This category includes:

- Complex type data layouts, which show the relationship of data submissions to the Education Organization Category. Also described is the information on the data submission for the current school year for LEAs submission of data to the ESCs and ESCs submission of data to TEA;

Asterisks (**) that appear in the complex type data layouts indicate that there is a complex type within a complex type. The Element Ids that are indented identify the data elements that are part of the complex type denoted with asterisks (**).

Data rows that are in gray and italicized represent complex types and data elements that are part of the Ed-Fi Core Schema, but not for Texas use at this time.

- Category type discussions which describe information related to each particular record type;
- Data submission samples, which provide samples of how to submit the data for each category.

Description

The SectionExtension Complex Type represents a setting in which organized instruction of course content is provided to one or more students for a given period of time. This complex type lists the current year courses taken by a student or taught by a teacher. A course may be offered to more than one class/section. Instruction, provided by one or more teachers or other staff members, may be delivered in person or via a different medium.

Reporting Requirements

The SectionExtension Complex Type inherits data elements from the Section Complex Type.

Information from the SectionExtension Complex Type is used to capture the complete course offerings for a particular campus. This information is then used for translating the data submitted for staff and student course participation in order to identify the classes enrolled in by students and classes taught by teachers.

All of the reference data elements must be defined either by the Course Complex Type in the Education Organization Interchange, Session Complex Type in the Education Org Calendar Interchange, and the CourseOffering Complex Type in the Master Schedule Interchange.

One record must be submitted in collection 3 for each unique class (course section) that was offered during the school year. Report all courses offered through a campus regardless of the method of delivery. If a student is being instructed in a particular Service on or through a campus, then the information for that SERVICE-ID should be included on this record.

For students that are placed in or are expelled to a DAEP program, or expelled to a JJAEP, the campus that enrolls the student during these disciplinary removals is responsible for creating the Section Complex Type data that reflect the new course sections to which the student has been assigned while attending a DAEP or a JJAEP.

Business Rules

Section Complex Type

CLASS-ID-NUMBER (E1056) is a number identifying a unique course section, that is unique for a particular school year, Campus, and SERVICE-ID.

CLASS-ID-NUMBER identifies a unique course section. CLASS-ID-NUMBER must be unique by school year, CAMPUS-ID, and SERVICE-ID. CLASS_ID_NUMBER must be unique such that multiple teachers can be linked to a single course section through the Teacher Assignment Records and students enrolled in a unique course section can be identified by the CLASS_ID_NUMBER on the Course Completion Record.

SEQUENCE-OF-COURSE (E1363) represents a section that is part of a sequence of parts for a course, the number if the sequence. If the course has only one part, the value of this section attribute should be 1.

EDUCATIONAL-ENVIRONMENT (E1160) is the setting in which a child receives education and related services; for example: Center-based instruction, Home-based instruction, Hospital class, Mainstream, Residential care and treatment facility.

MEDIUM-OF-INSTRUCTION (E1364) is the media through which teachers provide instruction to students and students and teachers communicate about instructional matters; for example: Technology-based instruction in classroom, Correspondence instruction, Face-to-face instruction, Virtual/On-line Distance learning, Center-based instruction.

POPULATION-SERVED (E1362) is the population for which the course was designed. For example: Bilingual students, Remedial education students, Gifted and talented students, Career and Technical Education students, Special education students.

**AvailableCredit Complex Type

The AvailableCredit Complex Type represents the amount of credit available to a student who successfully meets the objectives of the course. Available credits are measured in Carnegie units. A course meeting every day for one period of the school day over the span of a school year offers one Carnegie unit. See publication: U.S. Department of Education, NCES, 2007-341, Secondary School Course Classification System: School Codes for the Exchange of Data (SCED).

CREDIT (E1112) is the value of credits or units of value awarded for the completion of a course

**CourseOfferingReference Complex Type

The CourseOfferingReference Complex Type references the entity that represents an offering of a course by school during a session, representing the course catalog of available courses.

ref is an XML generated XML IDREF that references the object associated with this object.

For the SectionExtension Complex Type record, do not include courses with SERVICE-IDs that begin with SA, SE, SR, SS, 01, 8, or 9. Additionally the SERVICE-IDs for Prekindergarten and Kindergarten that begin with "02" cannot be reported. This rule is enforced by a fatal edit.

SERVICE-ID 02000000, Elementary, Grades 1-6, should be used only when a teacher is serving multi-grade or ungraded student populations, typically in a pullout program. It is not used for those situations where a district

assigns a teacher two contiguous grades of students because neither grade has enough students to allow for a single classroom.

For elementary school courses, districts have the option of using either the generic elementary SERVICE-IDs (02010000 - Grade 1, 02020000 - Grade 2, 02030000 - Grade 3, 02040000 - Grade 4, 02050000 - Grade 5, 02060000 - Grade 6) for the core curriculum or the subject specific Service IDs in the student and teacher scheduling system(s). However, the district should make the decision to report these elementary Service IDs based upon how the students will be reported on the CourseTranscriptExtension Complex Type in the summer submission. A school will not be able to report teachers using one method and students with the other as the data will not pass the fatal edits in the summer submission for the Classroom Link data reporting.

****CourseOfferingIdentity Complex Type**

The CourseOfferingIdentity Complex Type provides user information to lookup and link to an existing course offering record in the receiving system.

LOCAL-COURSE-CODE (E1194) is the local code assigned by the School that identifies the course offering provided for the instruction of students.

COURSE-OFFERING-TERM (E1503) is the term for the session during the school year.

COURSE-OFFERING-SCHOOL-YEAR (E1498) is the identifier for the school year.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number that is associated with the course offering.

****SchoolReference Complex Type**

The SchoolReference Complex Type represents the school where the section is taught.

****EducationalOrgIdentity Complex Type**

The EducationalOrgIdentity Complex Type provides user information to lookup and link to an existing educational organization record in the receiving system.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number that is associated with the course offering.

****LocationReference Complex Type**

The LocationReference Complex Type references the location, typically a classroom, where the section meets.

If a location is not available per Section, create a default location record.

****LocationIdentity Complex Type**

The LocationIdentity Complex Type provides user information to lookup and link to an existing location record in the receiving system.

CLASSROOM-IDENTIFICATION-CODE (E1292) is a unique number or alphanumeric code assigned to a room by a school, school system, state, or other agency or entity.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number associated with the location, typically a classroom, where the section meets.

****ClassPeriodReference Complex Type**

The ClassPeriodReference Complex Type represents the class period during which the section meets.

****ClassPeriodIdentity Complex Type**

The ClassPeriodIdentity Complex Type provides user information to lookup and link to an existing class period record in the receiving system.

CLASS-PERIOD (E1074) is the class period identifier that illustrates the time of the school day that a particular class was offered.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number that is associated with the course offering.

SectionExtension Complex Type

SCHOOL-YEAR (E1093) is the identifier for the school year.

SCHOOL-YEAR is the calendar year that identifies the spring semester for a particular school year.

POPULATION-SERVED-CODE (E0747) identifies the student population for which a service has been designed or is intended. It does not necessarily identify the program eligibility of the students who receive the service.

POPULATION-SERVED-CODE does not necessarily identify the program eligibility of the students who receive the service. A scheduled classroom service will have a single POPULATION-SERVED-CODE value (e.g. "01" for regular students) despite the fact that members of other student populations happen to be served in the class. The same holds true for non-classroom services. It is only when the service has been tailored for a special population that POPULATION-SERVED-CODE should be given values that apply to special student populations.

The correct value of POPULATION-SERVED-CODE is determined by the population for which the service was designed, not by the student population that receives a service. If two or more populations are being served, only one record should be reported, using the population for which the service was designed.

COURSE-SEQUENCE-CODE (E0948) identifies the unique part(s) of a course when a course is taught during a single grading period or semester or across multiple grading periods or semesters.

The COURSE-SEQUENCE-CODE identifies how the course was taught to the student during the school year, or in the summer.

NON-CAMPUS-BASED-INSTRUCTION-CODE (E1072) indicates that a course was offered for class credit or student achievement, but 1) was not taught by a school district/charter school employee or a contracted teacher, or 2) was taught by a school district/charter school employee or a contracted teacher at a facility other than the campus where the student is enrolled. Examples include but are not limited to college based instruction, non-district teacher, non-campus teacher, internet based instruction, electronic Course Pilot (eCP), and Texas Virtual School Network (TxVSN).

Special Reporting Requirements

Currently, there are no special reporting requirements.

Description

The StudentSectionAssociation Complex Type collects the complete list of courses that a student is taking or has attempted.

Reporting Requirements

For the Fall submission, this complex type collects the Career and Technical Education courses that the student is taking as of the “last Friday in October”.

For the Summer submission, this complex type collects the complete history of courses attempted and/or completed during the course of the school year

For the Extended-Year submission, this complex type collects the complete history of courses attended during the summer (between school years) for the purpose of a student attempting to earn dual credit.

Business Rules

****StudentReference Complex Type**

The StudentReference Complex Type represents the student enrolled in the section.

****StudentIdentity Complex Type**

The StudentIdentity Complex Type provides user information to lookup and link to an existing student record in the receiving system.

TX-UNIQUE-STUDENT-ID (E1523) is a unique number assigned to a student by the Texas Education Agency.

****SectionReference Complex Type**

SectionReference Complex Type is a reference to the section information.

****SectionIdentity Complex Type**

The SectionIdentity Complex Type provides user information to lookup and link to an existing section record in the receiving system.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number associated with the section.

CLASS-ID-NUMBER (E1056) is a number identifying a unique course section, that is unique for a particular school year, Campus, and SERVICE-ID.

LOCAL-COURSE-CODE (E1194) is the local code assigned by the School that identifies the course offering provided for the instruction of students.

SCHOOL-YEAR (E1093) is the identifier for the school year.

SECTION-TERM (E1367) is the type of the section during the school year.

CLASS-PERIOD (E1074) is the class period identifier that illustrates the time of the school day that a particular class was offered.

LOCATION (E1368) is the location, typically a classroom, where the section meets.

STUDENT-BEGIN-DATE (E1069) identifies the first date a student was assigned to the class in the current school year.

For submission 3, STUDENT-BEGIN-DATE identifies the first date a student was assigned to the class in the current school year. For submission 4, STUDENT-BEGIN-DATE identifies the date the dual credit course began.

STUDENT-END-DATE (E1070) identifies the last date a student was assigned to the class in the current school year.

For submission 3, STUDENT-END-DATE identifies the last date a student was assigned to the class in the current school year. For submission 4, STUDENT-END-DATE identifies the date the dual credit course ended.

The exact STUDENT-BEGIN-DATES and the STUDENT-END-DATES for each class in which the student is enrolled as of the Last Friday in October must be reported. For example, if a student started a semester with Biology I and changed to a different course such as Theatre on November 1st, then both the Biology I and the Theatre course must be reported on a 415 record along with the actual STUDENT-BEGIN-DATES and the STUDENT-END-DATES for each class.

HOME-ROOM-INDICATOR (E1440) indicates the section is the student's homeroom. Homeroom period may be the convention for taking daily attendance.

REPEAT-IDENTIFIER (E1441) is an indication as to whether a student has previously taken a given course.

COURSE-SEQUENCE-CODE (E0948) identifies the unique part(s) of a course when a course is taught during a single grading period or semester or across multiple grading periods or semesters.

The COURSE-SEQUENCE-CODE identifies how the course was taught to the student during the school year, or in the summer.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Description

The TeacherSectionAssociationExtension Complex Type represents a person that is employed by an LEA or other educational unit engaged in student instruction. These persons are instructional-type staff members. In the data model, a teacher entity is a staff member with additional properties.

Reporting Requirements

The TeacherSectionAssociationExtension Complex Type inherits data elements from the TeacherSectionAssociation Complex Type and contains data elements that are attributes of staff assignments.

Information from the TeacherSectionAssociationExtension Complex Type is used to capture the classroom assignments for classroom teachers only (Role IDs 087 and 047 only). This information is also used to link back to the SectionComplex Type in order to identify the classroom information associated with a teacher's respective class assignments. This information is collected in Submission 3 only.

The TeacherSectionAssociationExtension Complex Type is required to be tracked and reported beginning with the last Friday in October of each school year.

1. **Minimum Reporting Standards:** LEAs will be required to report all teachers (Teachers of Record, Assistant Teachers, and Support Teachers) that provide instructional services for a particular class, excluding the Service IDs listed in #4 below. For example, if a teacher rotates through each of the third grade classes providing a reading service to the students, then that teacher would have a "class role" of "support teacher" and would need to be assigned to and reported with each class that he/she provides the instructional reading service.
2. If more than one "Teacher of Record" is assigned to a class during the duration of the class, then all "Teachers of Record" must be reported on a 305 record.
3. LEAs are required to report the actual ASSIGNMENT-BEGIN-DATES and the ASSIGNMENT-END-DATES for all teaches (Teachers of Record, Assistant Teachers, and Support Teachers) associated with a particular class. For example, if a particular section of Algebra I had two different "Teachers of Record" before the class ended, then the actual ASSIGNMENT-BEGIN-DATES and ASSIGNMENT-END-DATES for each teacher's service would be reported on their respective 305 records. This scenario also applies to assistant and support teachers as well.
4. Locally developed courses such as the special education 9XXXXXXX series and the locally developed 8XXXXXXX series courses are not reported through the Classroom Link data reporting. Additionally, the Service IDs that begin with SS, SR, and SA are excluded because these series of Service IDs are not valid for student records.

For teachers that are assigned to teach in a district operated DAEP program, the campus that the teacher is associated with reports the TeacherSectionAssociationExtension Complex Type reflecting the classes the teacher is teaching to DAEP students. If a student is placed in, or expelled to, a DAEP setting, the "teacher(s) of record" for the student will change due to the student being assigned to a new set of courses (Course Section) at the DAEP that are taught by teachers assigned to the DAEP program.

Business Rules

TeacherSectionAssociation Complex Type

**TeacherReference Complex Type

The TeacherReference Complex Type represents the teacher assigned to the section.

** StaffIdentity Complex Type

The StaffIdentity Complex Type provides user information to lookup and link to an existing staff record in the receiving system.

TX-UNIQUE-STAFF-ID (1524) is a unique number or alphanumeric code assigned to a staff by a state education agency.

**SectionReference Complex Type

The SectionReference Complex Type is the reference to the section the teacher is assigned.

**SectionIdentity Complex Type

The SectionIdentity Complex Type represents the attributes used to specify a section

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number associated with the section.

**EducationOrgIdentificationCode Complex Type

The EducationOrgIdentificationCode Complex Type is a unique number or alphanumeric code assigned to an

education organization by a school, school system, a state, or other agency or entity.

EDUCATION-ORG-IDENTIFICATION-SYSTEM (E1241) is a unique number or alphanumeric code assigned to an education organization by a school, school system, a state, or other agency or entity. **EDUCATION-ORG-ID (E1463)** is a unique number or alphanumeric code assigned to an education organization by a school, school system, a state, or other agency or entity.

CLASS-ID-NUMBER (E1056) is a number identifying a unique course section, that is unique for a particular school year, Campus, and SERVICE-ID.

The CLASS-ID-NUMBER and SERVICE-ID must be unique for a particular course section at the campus level and match an entry on the TeacherSectionAssociationExtension Complex Type.

****CourseCode Complex Type**

The code that identifies the organization of subject matter and related learning experiences provided for the instruction of students.

COURSE-IDENTIFICATION-SYSTEM (E1089) is a system that is used to identify the organization of subject matter and related learning experiences provided for the instruction of students.

COURSE-CODE-ASSIGNING-ORGANIZATION-CODE (E1511) is the organization code or name assigning the course code.

SERVICE-ID (E0724) refers to the services supplied by staff.

Do not include courses with SERVICE-IDs that begin with SA, SR, SS, 01, 8, or 9.

LOCAL-COURSE-CODE (E1194) is the local code assigned by the School that identifies the course offering provided for the instruction of students.

SCHOOL-YEAR (E1093) is the identifier for the school year.

SECTION-TERM (E1367) is the type of the section during the school year.

CLASS-PERIOD (E1074) is the class period identifier that illustrates the time of the school day that a particular class was offered.

LOCATION (E1368) is the location, typically a classroom, where the section meets.

CLASSROOM-POSITION (E1454) is the type of position the staff member holds in the specific class/section; for example: Teacher of Record, Assistant Teacher, Support Teacher, Substitute Teacher.

ASSIGNMENT-BEGIN-DATE (E1065) identifies the first date a teacher was assigned to the class in the current school year.

ASSIGNMENT-END-DATE (E1066) identifies the last date a teacher was assigned to the class in the current school year.

HIGHLY-QUALIFIED-TEACHER (E1449) is an indication of whether a teacher is classified as highly qualified for his/her assignment according to state definition. This attribute indicates the teacher is highly qualified for this section being taught.

TeacherSectionAssociationExtension Complex Type

CLASS-ROLE (E1067) identifies the role served by a teacher for a class.

CLASS-ROLE identifies the role served by a teacher in a class. The teacher is either a “Teacher of Record”, “Assistant Teacher”, or a “Support Teacher”.

COURSE-SEQUENCE-CODE (E0948) identifies the unique part(s) of a course when a course is taught during a single grading period or semester or across multiple grading periods or semesters.

The COURSE-SEQUENCE-CODE identifies how the course was taught to the student during the school year, or in the summer.

ROLE-ID (E0721) identifies the capacity in which a person serves. Examples of roles are teacher, art therapist, and superintendent.

Special Reporting Requirements

Currently, there are no special reporting requirements.
