Education Organization Category

The Education Organization Category provides information about the state education agency, education service centers, local education agencies (school districts and charter schools), and campuses. This data category supports the definition of the education offerings provided by campuses, specifically the courses taught, the sections in each course offered and the class period and location of those sections, and the alternative/supplemental programs offered.

The shared services arrangement (SSA) participation data is also reported for each organization type when applicable. This category includes:

- Complex type data layouts, which show the relationship of data submissions to the Education Organization Category.
- Also described is the information on the data submission for the current school year for LEAs submission of data to the ESCs and ESCs submission of data to TEA;
- Asterisks (**) that appear in the complex type data layouts indicate that there is a complex type within a complex type. The Element Ids that are indented identify the data elements that are part of the complex type denoted with asterisks (**).
- Data rows that are in gray and italicized represent complex types and data elements that are part of the Ed-Fi Core Schema, but not for Texas use at this time.
- Category type discussions which describe information related to each particular record type;
- Data submission samples, which provide samples of how to submit the data for each category.

Description

The EducationServiceCenter Complex Type represents a regional, multi-services public agency authorized by state law to develop, manage, and provide services, programs, or other optional support (e.g., construction, food services, and technology services) to LEAs.

Reporting Requirements

For Dashboard reporting, do not submit the EducationServiceCenter Complex Type. Use the LocalEducationAgency Complex Type to report the Education Service Center (ESC).

For PEIMS reporting, the EducationServiceCenter Complex Type is required for submissions 1 and 2 only for ESCs. Report only one ESC per XML file.

An ESC cannot report the EDUCATION-SERVICE-CENTER-ID of another ESC within their data submission file.

Special Reporting Requirements

ESC organization changes must be updated through the AskTED system prior to submitting its respective data in order for the TSDS system to accurately identify an ESC during the data submission process.

Business Rules

EDUCATION-SERVICE-CENTER-ID (E1091) indicates the ESC identification number registered with the Texas Education Agency. The EDUCATION-SERVICE-CENTER-ID must match the 'District Code' in the data submission file name.

EDUCATION-SERVICE-CENTER-NAME (E1086) identifies the name of the education service center registered with the Texas Education Agency.

****OrganizationCategories Complex Type**

The OrganizationCategories Complex Type is the classification of the education agency within the geographic boundaries of a state according to the level of administrative and operational control granted by the state.

ORGANIZATION-CATEGORY (E1240) is the classification of the education agency within the geographic boundaries of a state according to the level of administrative and operational control granted by the state.

Description

The Local Education Agency (LEA) Complex Type represents an administrative unit at the local level which exists primarily to operate schools or to contract for educational services. It includes school districts, charter schools, charter management organizations, and other local administrative organizations.

The Local Education Agency is defined as follows:

A public board of education or other public authority legally constituted within a state for either administrative control of or direction of, or to perform service functions for, public elementary or secondary schools in:

- 1) A city, county, township, school district, or other political subdivision of a state; or
- 2) Such combination of school districts or counties a state recognizes as an administrative agency for its public elementary or secondary schools; or
- 3) The term also includes any other public institution or agency that has administrative control and direction of a vocational education program.

Reporting Requirements

For both Dashboard and PEIMS reporting, if the Local Education Agency Extension Complex Type is submitted, report only one LEA record.

Community and Student Engagement (CASE) Indicators

In submission 3, each LEA, excluding the Texas Juvenile Justice Department public school (227-622), report the eight CASE indicators, the Overall CASE Ratings Indicator, and the Statutory Reporting and Policy Compliance Indicator.

In addition to a school district or open enrollment charter school reporting the above mentioned ratings for the self-evaluated performance for the CASE indicators, school districts and charter schools are mandated under TEC 39.0546 to select and report to the agency three programs or categories under TEC 39.0545(b)(1), under which the LEA will evaluate LEA performance, and submit to the agency the criteria the district will use to evaluate district performance and assign the district a performance rating.

Each public school district or open enrollment charter school (LEA) that is required to report this information is required to select three distinct categories listed below and must report those selections in PEIMS Submission 3, prior to the school year in which the performance will be evaluated. For example an LEA will report their three choices at the end of the 2016-2017 school year, and then will report the actual ratings on the same three choices near the end of the 2017-2018 school year.

PEIMS data elements E1575 – E1577 are supported by PEIMS code table C205 – CASE-CHOICE-CODE.

Special Reporting Requirements

LEA organization changes must be updated through the AskTED system prior to submitting its respective data in order for the TSDS system to accurately identify an LEA during the data submission process.

For submission 3: With the exception of the Texas Juvenile Justice Department (TJJD) – (227622) all LEAs must assign and report performance ratings for the community and student engagement indicators (E1531-E1540) and selections for the three CASE ratings categories they want to be rated on (E1575-E1577), and the criteria used for the ratings (E1578).

The legislation that mandates the reporting of total cost, Texas Education Code §11.1512, does not specify how to determine total cost. If a district would like guidance, please refer to Title 1, Part 3, §70.3, of the Texas Administrative Code (TAC), Charges for Providing Copies of Public Information. TAC §70.3 was written for recovering the cost of responding to information requests and not for determining the cost of fulfilling school board requests; however, it may be helpful as an example of how to determine cost.

The data collection period for E1557 is from June 1 through May 31 of each year.

To accomplish this reporting requirement, each LEA must report a valid internet link to a location on the LEA internet website that will allow access to the criteria that will be used by the LEA in the following school year to determine the actual ratings for the three CASE choices. This internet link will be reported using the following PEIMS data element.

FAMILY-ENGAGEMENT-CRITERIA-LINK (E1583) indicates the internet website link for LEAs to provide their Family Engagement Plan.

The FAMILY-ENGAGEMENT-CRITERIA-LINK will need to remain active for as long as the district is using funds for a High Quality Pre-K program.

Description

The SchoolExtension complex type represents an educational organization that includes staff and students who participate in classes and educational activity groups.

Reporting Requirements

For Dashboard reporting, an LEA must report at least one active instructional campus that is registered through AskTED with the Texas Education Agency.

For PEIMS reporting, every LEA must report one campus record for each active instructional campus that is registered through AskTED with the Texas Education Agency.

A LEA cannot report the CAMPUS-ID of another LEA in the SchoolExtension Complex Type.

Texas Education Agency will pre-populate the Education Data Warehouse (EDW) with the AskTED education organization data that is centrally managed by the Texas Education Agency. However, an LEA may populate the education organization data from the source system but data will be overridden with information from AskTED.

Community and Student Engagement (CASE) Indicators

In submission 3, each campus, excluding the Texas Juvenile Justice Department public school (227-622) campuses, Juvenile Justice Alternative Education Program (JJAEP) campuses, Disciplinary Alternative Education Program (DAEP) campuses, and juvenile detention center campuses, reports the eight CASE indicators, the Overall CASE Ratings Indicator, and the Statutory Reporting and Policy Compliance Indicator.

In addition to a LEA campus reporting the above mentioned ratings for the self-evaluated performance for the CASE indicators, LEA campuses are mandated under TEC 39.0546 to select and report to the agency three programs or categories under TEC 39.0545(b)(1), under which the campus will evaluate campus performance, and submit to the agency the criteria the campus will use to evaluate campus performance and assign the campus a performance rating.

Only Juvenile Justice Alternative Education Program (JJAEP) campuses, Disciplinary Alternative Education Program (DAEP) campuses, and Texas Juvenile Justice Department juvenile detention facility campuses are exempt from reporting this data. All other campuses are required to report this information. Each campus will select three distinct categories listed below and must report those selections in PEIMS Submission 3, prior to the school year in which the performance will be evaluated. For example a LEA will report their three choices at the end of the 2016-2017 school year, and then will report the actual ratings on the same three choices near the end of the 2017-2018 school year. PEIMS data elements E1575 - E1577 are supported by PEIMS code table C205 – CASE-CHOICE-CODE.

| Code | Translation |
|------|---|
| 01 | Fine Arts Category Code |
| 02 | Wellness and Physical Ed Category Code |
| 03 | Community and Parental Involvement Category Code |
| 04 | 21 Century Workforce Development Category Code |
| 05 | Second Language Acquisition Program Category Code |
| 06 | Digital Learning Environment Category Code |
| 07 | Dropout Prevention Strategies Category Code |
| 08 | Educational Program for GT Students Category Code |

Failure to report these three data elements with valid codes will result in a negative impact on the campus accountability ratings issued by the Agency at the end of the following school year.

Special Reporting Requirements

Campus organization changes must be updated through the AskTED system prior to submitting its respective data in order for the TSDS system to accurately identify a campus during the data submission process.

With the exception of the Texas Juvenile Justice Department (TJJD/227622), all districts must assign performance ratings for the community and student engagement indicators to all active instructional campuses in the district, except for Disciplinary Alternative Education Program (DAEP) campuses, Juvenile Justice Alternative Education Program (JJAEP) campuses, and certain Alternative Education Program (AEP) campuses that serve only students in TJJD facilities.

Business Rules

id is an XML generated XML ID associated with this complex type.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency (TEA). It is the linking of DISTRICT-ID with the campus identification number.

An instructional campus:

- 1) has an assigned administrator,
- 2) has enrolled students who are counted for average daily attendance,
- 3) has assigned instructional staff,
- 4) receives federal and/or state and/or local funds as its primary support,
- 5) provides instruction in the Texas Essential Knowledge and Skills (TEKS),
- 6) has one or more grade groups in the range from early education through grade 12, and
- 7) is not a program for students enrolled in another public school.

An alternative instructional unit:

- 1) is an instructional site, center, program, or arrangement that is not governed by an individual campus organization, and
- 2) does not meet the above standard definition of an instructional campus.

The campuses reported on the SchoolExtension Complex Type must match a campus registered with the TEA for the current year.

Description

The SectionExtension Complex Type represents a setting in which organized instruction of course content is provided to one or more students for a given period of time. This complex type lists the current year courses taken by a student or taught by a teacher. A course may be offered to more than one class/section. Instruction, provided by one or more teachers or other staff members, may be delivered in person or via a different medium.

Reporting Requirements

The SectionExtension Complex Type inherits data elements from the Section Complex Type.

Information from the SectionExtension Complex Type is used to capture the complete course offerings for a particular campus. This information is then used for translating the data submitted for staff and student course participation in order to identify the classes enrolled in by students and classes taught by teachers.

All of the reference data elements must be defined either by the Course Complex Type in the Education Organization Interchange, Session Complex Type in the Education Org Calendar Interchange, or the CourseOffering Complex Type in the

Master Schedule Interchange.

One SectionExtension Complex Type must be submitted in submission 3 for each reportable unique class (course section) that was offered during the school year. Report all courses offered through a campus regardless of the method of instructional delivery. If a student is being instructed in a particular service on or through a campus, then the information for that SERVICE-ID should be included on the CourseOffering Complex Type and Course Complex Type. Each LEA must begin tracking the course sections for reporting purposes as of the PEIMS fall snapshot date and for any course sections that were completed prior to the PEIMS fall snapshot date.

For each SectionExtension Complex Type reported where NON-CAMPUS-BASED-INSTRUCTION-CODE is “00”, there must be a matching TeacherSectionAssociationExtension Complex Type (CAMPUS-ID, SERVICE-ID, CLASS-ID-NUMBER, and COURSE-SEQUENCE-CODE), where CLASS-ROLE is ‘01’ (Teacher of Record). This rule ensures that each course section offered at a campus that should have a teacher assigned to it, does indeed have a teacher reported for that section.

For each SectionExtension Complex Type, there must be a matching CourseTranscriptExtension Complex Type where CAMPUS-ID-OF-ENROLLMENT matches CAMPUS-ID, and SERVICE-ID, CLASS-ID-NUMBER, and COURSE-SEQUENCE-CODE is the same. This rule ensures that each course section offered at a campus has at least one student assigned to that course section.

For students that are placed in or are expelled to a DAEP program, or expelled to a JJAEP, the campus that enrolls the student during these disciplinary removals is responsible for creating the SectionExtension Complex Type(s) that reflect the new course sections to which the student has been assigned while attending a DAEP or a JJAEP.

Texas School for the Deaf (TSD) and Texas School for the Blind and Visually Impaired (TSBVI), and Texas Juvenile Justice Department (TJJD) must report the SectionExtension Complex Type.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

CLASS-ID-NUMBER (E1056) is a number identifying a unique course section that is unique for a particular school year, Campus, and SERVICE-ID.

CLASS-ID-NUMBER must be unique such that multiple teachers can be linked to a single course section through the Teacher Assignment Records and students enrolled in a unique course section can be identified by the CLASS-ID-NUMBER on the SectionExtension Complex Type.

SEQUENCE-OF-COURSE (E1363) represents a section that is part of a sequence of parts for a course, the number if the sequence. If the course has only one part, the value of this section attribute should be 1.

EDUCATIONAL-ENVIRONMENT (E1160) is the setting in which a child receives education and related services; for example: Center-based instruction, Home-based instruction, Hospital class, Mainstream, Residential care and treatment facility.

MEDIUM-OF-INSTRUCTION (E1364) is the media through which teachers provide instruction to students and students and teachers communicate about instructional matters; for example: Technology-based instruction in classroom, Correspondence instruction, Face-to-face instruction, Virtual/On-line Distance learning, Center-based instruction.

POPULATION-SERVED (E1362) is the population for which the course was designed. For example: Bilingual students, Remedial education students, Gifted and talented students, Career and Technical Education students, Special education students.

** AvailableCredit Complex Type

The AvailableCredit Complex Type represents the amount of credit available to a student who successfully meets the objectives of the course. Available credits are measured in Carnegie units. A course meeting every day for one period of the school day over the span of a school year offers one Carnegie unit. See publication: U.S. Department of Education, NCES, 2007-341, Secondary School Course Classification System: School Codes for the Exchange of Data (SCED).

CREDIT (E1112) is the value of credits or units of value awarded for the completion of a course.

****CourseOfferingReference Complex Type**

The CourseOfferingReference Complex Type references the entity that represents an offering of a course by school during a session, representing the course catalog of available courses.

ref is an XML generated XML IDREF that references the object associated with this object.

For the SectionExtension Complex Type record, do not include courses with SERVICE-IDs that begin with SA, SE, SR, SS, or 8.

SERVICE-ID 02000000, Elementary, Grades 1-6, should be used only when a teacher is serving multi-grade or ungraded student populations, typically in a pullout program. It is not used for those situations where a district assigns a teacher two contiguous grades of students because neither grade has enough students to allow for a single classroom.

For elementary school courses, districts have the option of using either the generic elementary SERVICE-IDs (02010000 - Grade 1, 02020000 - Grade 2, 02030000 - Grade 3, 02040000 - Grade 4, 02050000 - Grade 5, 02060000 - Grade 6) for the core curriculum or the subject specific Service IDs in the student and teacher scheduling system(s). However, the district should make the decision to report these elementary Service IDs based upon how the students will be reported on the CourseTranscriptExtension Complex Type in the summer submission. A school will not be able to report teachers using one method and students with the other as the data will not pass the fatal edits in the summer submission for the Classroom Link data reporting.

****CourseOfferingIdentity Complex Type**

The CourseOfferingIdentity Complex Type provides user information to look up and link to an existing course offering record in the receiving system.

LOCAL-COURSE-CODE (E1194) is the local code assigned by the School that identifies the course offering provided for the instruction of students.

COURSE-OFFERING-TERM (E1503) is the term for the session during the school year.

COURSE-OFFERING-SCHOOL-YEAR (E1498) is the identifier for the school year.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number that is associated with the course offering.

****SchoolReference Complex Type**

The SchoolReference Complex Type represents the school where the section is taught.

****EducationalOrgIdentity Complex Type**

The EducationalOrgIdentity Complex Type provides user information to look up and link to an existing educational organization record in the receiving system.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number that is associated with the course offering.

****LocationReference Complex Type**

The LocationReference Complex Type references the location, typically a classroom, where the section meets. If a location is not available per Section, create a default location record.

****LocationIdentity Complex Type**

The LocationIdentity Complex Type provides user information to look up and link to an existing location record in the receiving system.

CLASSROOM-IDENTIFICATION-CODE (E1292) is a unique number or alphanumeric code assigned to a room by

a school, school system, state, or other agency or entity.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number associated with the location, typically a classroom, where the section meets.

****ClassPeriodReference Complex Type**

The ClassPeriodReference Complex Type represents the class period during which the section meets.

****ClassPeriodIdentity Complex Type**

The ClassPeriodIdentity Complex Type provides user information to look up and link to an existing class period record in the receiving system.

CLASS-PERIOD (E1074) is the class period identifier that illustrates the time of the school day that a particular class was offered.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number that is associated with the course offering.

SectionExtension Complex Type

SCHOOL-YEAR (E1093) is the identifier for the school year.

SCHOOL-YEAR is the calendar year that identifies the spring semester for a particular school year.

POPULATION-SERVED-CODE (E0747) identifies the student population for which a service has been designed or is intended. It does not necessarily identify the program eligibility of the students who receive the service.

POPULATION-SERVED-CODE does not necessarily identify the program eligibility of the students who receive the service. A scheduled classroom service will have a single POPULATION-SERVED-CODE value (e.g. "01" for regular students) despite the fact that members of other student populations happen to be served in the class. The same holds true for non-classroom services. It is only when the service has been tailored for a special population that POPULATION-SERVED-CODE should be given values that apply to special student populations.

The correct value of POPULATION-SERVED-CODE is determined by the population for which the service was designed, not by the student population that receives a service. If two or more populations are being served, only one record should be reported, using the population for which the service was designed.

COURSE-SEQUENCE-CODE (E0948) identifies the unique part(s) of a course when a course is taught during a single grading period or semester or across multiple grading periods or semesters.

The COURSE-SEQUENCE-CODE identifies how the course was taught to the student during the school year, or in the summer.

NON-CAMPUS-BASED-INSTRUCTION-CODE (E1072) indicates that a course was offered for class credit or student achievement, but 1) was not taught by a school district/charter school employee or a contracted teacher, or 2) was taught by a school district/charter school employee or a contracted teacher at a facility other than the campus where the student is enrolled. Examples include but are not limited to college based instruction, non-district teacher, non-campus teacher, internet based instruction, electronic Course Pilot (eCP), and Texas Virtual School Network (TxVSN).

The following information expands on the NON-CAMPUS-BASED-INSTRUCTION-CODEs to better explain the intent of each code.

- 01 - College Campus Based Course - College course (usually a dual credit course) is taught either on a college campus or a high school campus by an instructor not employed by the LEA. College courses taught on a high school campus by a LEA teacher with college credentials cannot be coded with NON-CAMPUS-BASED-INSTRUCTION-CODE 01.
- 02 - Electronic/Internet/Correspondence Based Course – Any course that is taught not using an actual

teacher (ROLE-ID 087 or 047) in the classroom where the student(s) meet for the class. Examples include internet delivered curriculum, academic instructional software programs, video instruction (live or recorded), online courses, etc.

- 03 - Non-District Teacher Providing Classroom Instruction Services – This course is taught by a teacher that is employed by another school district/charter. The “classroom” could be at any suitable location. Do not use this code for reporting college instructors.
- 04 – Texas Virtual School Network (TxVSN) Online Schools program (Formerly Electronic Course Program (eCP)) – This is a full-time virtual program available only to eligible students in grade levels 3 - 12 who are enrolled in an eligible LEA participating in the program. For additional information and rules refer to the Student Attendance Accounting Handbook. In order for a school to receive state funding for students enrolled in the TxVSN online school, all TxVSN Online Schools program course sections offered to students must be reported with this code.
- 05 - Texas Virtual School Network (TxVSN) Statewide Online Course Catalog – This program provides a supplemental statewide online course catalog of high school, advanced placement, and dual credit courses to eligible students in grade levels 9 - 12 who are enrolled in the LEA. For additional information refer to the Student Attendance Accounting Handbook. In order for a school to receive state funding for students enrolled in courses offered through the TxVSN statewide course catalog, all TxVSN Statewide course catalog course sections offered to students must be reported with this code.
- 06 - Non-Campus Teacher Providing Instruction at Another District Facility – These courses are taught in the district at a location that does not have its own campus number. An example of this would be when the CTE program courses are all taught at a central CTE location that is not eligible for its own campus number. These teachers are not associated with any other campus in the LEA.
- 07 - Juvenile Justice Alternative Education Program (JJAEP) - TEC 37.011 – These courses are always taught at a JJAEP that has been established in accordance with TEC 37.011, and are taught by teachers that are hired or are paid for by the JJAEP.
- 08 - Credit by Exam – This code reflects those courses for which a student earned credit through the official “credit by exam” process.
- 09 - Out of District DAEP Program – This code reflects those courses that a student is assigned to while placed in a DAEP that is physically located in another school district or charter school. While this code is similar to the “Non District Teacher” code 03, it is limited to those instances of a student attending a DAEP that is physically under the control of another school district or charter school.
- 10 - Non-District PE Substitution Program (Limited to Service IDs PES00008 - PES00011) – The use of this code is limited to those cases where the LEA has authorized a student to earn PE credit by participating in a physical education activity that is not offered by the LEA. These include such things as gymnastic organizations, etc....
- 99 – Other - The use of this code is limited to those situations where no other Non-Campus Based Instruction code listed above applies and the teacher, if applicable, in the classroom is not employed by or under direct contract to the LEA. The use of Non Campus Based Instruction Code 99 should be rare.

PK-CURRICULA (E1579) Indicates curricula used in the district’s prekindergarten program section TEC 29.1532(c)(6).

HIGH-QUALITY-PK-PROGRAM-INDICATOR (E1580) Indicates campus participation in the High Quality Grant Program Funding at an LEA if the district meets all program standards required under subchapter TEC 29.166(b).

The STUDENT-INSTRUCTION data element is only reported for course sections that utilize the Pre-Kindergarten SERVICE ID – 01010000 (Pre-Kindergarten).

STUDENT-INSTRUCTION (E1558) Indicates the PK student type of instruction.

PK-SCHOOL-TYPE (E1555) Indicates the PK program that is offered at the campus.

The PK-SCHOOL-TYPE applies to a campus/course/section.

Description

The CalendarDateExtension Complex Type represents a day in the school calendar.

Reporting Requirements

Texas Education Code 25.081 requires that schools operate a school year for each campus that includes 75,600 minutes of school day operation over the course of the school year. The collection of the data on the CalendarDateExtension Sub-Category is limited to the days that students are planned to attend school and the days that are sub-planted with a waiver and the students do not actually attend school either for a partial day or a full day. Do not report school holidays, such as spring break, weekends, or any other time that staff and students are not expected to be at school. Do not include staff work days that are not related to exercising the option of using a staff development waiver in lieu of a student instruction day.

Because schools are required to operate a school year consisting of at least 75,600 school day operational minutes, the sum of the SCHOOL-DAY-OPERATIONAL-MINUTES and the SCHOOL-DAY-WAIVER-MINUTES should add to at least 75,600 minutes.

CALENDAR-DATE (E1168) is the month, day and year of the calendar date.

CALENDAR-EVENT (E1169) is the type of scheduled or unscheduled event for the day. For example: Instructional day, Teacher only day, Holiday, Make-up day, Weather day, Student late arrival/early dismissal.

In order to derive the attendance rates, use Instructional day, Make-up day, or Teacher Only day enumeration values.

SCHOOL-DAY-EVENT-CODE (E1582) is the type of scheduled or unscheduled event for the day. For example: Student Instructional day or Waiver day.

CALENDAR-WAIVER-EVENT-TYPE (E1570) indicates the type of state approved waiver.

SCHOOL-DAY-OPERATIONAL-MINUTES (E1571) indicates the minutes that a campus operated on a particular school day

for the purpose of student instruction.

SCHOOL-DAY-WAIVER-MINUTES (E1572) indicates the waiver minutes for the campus and calendar date.

Example(s)

Texas ISD has three campuses: an elementary, middle school, and high school. Texas Middle School aims to operate a 75,600 minute school year by operating the campus for seven (7) hours or 420 minutes each school day. As a result of operating the school day for 420 minutes each school day, the total number of school days will work out to 180 days of planned student instruction.

Description

The ReportingPeriodExtension Complex Type represents a time period for which student attendance data are reported.

Reporting Requirements

Texas Education Code 25.081 requires that schools operate a school year for each campus that includes 75,600 minutes of school day operation over the course of the school year. The collection of the data on the ReportingPeriodExtension Sub-Category identifies the first calendar day and last calendar day of each six-week reporting period for each campus, six-week reporting period, and instructional track. For example, if the first day of a particular reporting period was planned as a student day and is turned into a non-student day because of the use of a waiver, such as a staff development day waiver or a missed instructional day waiver, then that day will be reported as the beginning date of a particular reporting period. The same will be true if the last day of a particular reporting is sub-planted with a waiver for either a partial day or full day of school.

Because schools report the school year for a particular campus to TEA in six approximately equal reporting periods, each LEA school campus should have six (6) strings of XML data for the CalendarDateExtension showing the REPORTING-PERIOD-INDICATOR-CODE (E0934), REPORTING-PERIOD-BEGIN-DATE (E1568), REPORTING-PERIOD-END-DATE (E1569), and NUMBER-DAYS-TAUGHT (E0935). This string of data will be repeated for each instance of a unique instructional track by indicating the INSTRUCTIONAL-TRACK-INDICATOR-CODE (E0975). For example, if a school campus operates two different instructional tracks, then the school will report a total of twelve (12) strings of XML data for the CalendarDateExtension.

Refer to the Student Attendance Accounting Handbook for additional details and rules related to operating a campus for 75,600 minutes per school year.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

****EducationOrganizationReference Complex Type**

The Education Organization that defines the curriculum and courses offered - often the LEA.

****EducationalOrgIdentity Complex Type**

The EducationalOrgIdentity Complex Type provides user information to look up and link to an existing educational organization record in the receiving system.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency (TEA). It is the linking of DISTRICT-ID with the campus identification number.

The campuses reported on the SchoolExtension Complex Type must match a campus registered with the TEA for the current year.

A campus must not be reported with a number greater than 698.

The first 6 characters of CAMPUS-ID must match the value of the DISTRICT-ID in the LEA's LocalEducationAgencyExtension Complex Type.

SCHOOL-YEAR (E1093) is the identifier for the school year.

REPORTING-PERIOD-INDICATOR-CODE (E0934) indicates the period for which the attendance data are being reported.

REPORTING-PERIOD-BEGIN-DATE (E1568) indicates the first day of the reporting period.

REPORTING-PERIOD-END-DATE (E1569) indicates the last day of the reporting period.

NUMBER-DAYS-TAUGHT (E0935) indicates the number of days of instruction offered, as shown on the school calendar, during a particular reporting period.

****CalendarDateReference Complex Type**

The CalendarDateReference Complex Type references the days associated with the grading period.

ref is an XML generated XML IDREF that references the object associated with this object.

The CalendarDateReference, located in the ReportingPeriodExtension, is considered *unbounded*. What this means is that the XML Name can be repeated within the ReportingPeriodExtension tag. Example 1 demonstrates the concept of an "unbounded" element. This structure is how the CalendarDateReference should be reported.

****In order to determine if an element is unbounded you can look at the XSD for the text maxOccurs="unbounded".**

Description

The SSAOrgAssociationExtension Complex Type identifies the ESC/LEA fiscal agents and the ESC and/or LEA member(s) for each type of shared services arrangement (SSA) that exists among two or more ESCs and or LEAs.

Shared services arrangements are used by LEAs and/or education service centers to share personnel or services, when one entity cannot justify the cost of employing a specialized staff member, but a group can justify a portion of the salary. Specific guidance is provided in the FAR module of the Financial Accountability System Resource Guide and Texas Education Data Standards for LEAs (as government entities) to record and report the results of operations of shared service arrangements.

This guidance does not apply to non-profit charter schools since they are 501(c)(3) entities rather than government entities; therefore, non-profit charter schools are required to record the results of shared service arrangements within their own financial statements. If one entity maintains the accounting transactions for all entities sharing services, that entity must provide the necessary accounting information to each of the participating entities to record transactions.

However, any charter schools with a governmental charter holder (city, university, community college, etc.) are still required to follow governmental accounting standards and would follow shared service accounting guidelines.

The fiscal agent for a particular SSA does not report an SSAOrgAssociationExtension Complex Type for each shared services arrangement member district. Each ESC and LEA, whether a fiscal agent of, or a member of, an SSA, reports its own SSAOrgAssociationExtension Complex Type. This is different from the SharedServiceArrangementExtension Complex Type (Finance Category) reporting, where only the fiscal agent reports the financial expenditures for each of the SSA members.

The SSA data is used by TEA to match SSA participants and fiscal agents for financial reporting purposes. This data figures into the “maintenance of effort” (MOE) for special education spending thresholds for both state and federal allotments. The Texas Education Agency also uses the SSA information reported through this complex to check for consistent SSA financial reporting between Fiscal Agents and Member Districts.

Reporting Requirements

Submission 1:

The SSAOrgAssociationExtension Complex Type must be reported by each ESC and LEA which participates in or is a member of an SSA. This includes the ESCs and LEAs serving as fiscal agents for a particular SSA.

Submission 2:

For each record in the SSAOrgAssociationExtension Complex Type, there must be an ActualExtension Complex Type data record and a SharedServiceArrangementExtension Complex Type data record with appropriate fund codes for the SSA financial reporting.

Special Reporting Requirements

Charter schools do not submit any data through the Shared Services Arrangement Organization Association Complex Type. A charter school cannot be reported as either an SSA member or an SSA fiscal agent.

Texas School for the Blind and Visually Impaired and Texas School for the Deaf do not submit data through the Shared Services Arrangement Organization Association Complex Type.

Business Rules

**LEAReference Complex Type

The LEAReference Complex Type represents the recipient of the shared services.

**EducationalOrgIdentity Complex Type

The EducationalOrgIdentity Complex Type provides user information to look up and link to an existing educational organization record in the receiving system.

DISTRICT-ID (E0212) indicates the district identification number registered with the Texas Education Agency. For the purposes of the SSAOrgAssociationExtension Complex Type, the DISTRICT-ID data element identifies the member ESC/LEA that is a member of a particular SSA type identified with the Shared Services Arrangement Type Codes (E0776).

DISTRICT-ID on the SSAOrgAssociationExtension Complex Type must match the value for DISTRICT-ID on the LocalEducationAgencyExtension Complex Type.

SHARED-SVCS-ARRANGEMENT-TYPE-CODE (E0776) indicates the type of program or service provided by the shared service arrangement.

**TX-FiscalAgentEducationOrganizationReference

The TX-FiscalAgentEducationOrganization Complex Type represents the provider of the shared service (i.e. the fiscal agent).

**EducationalOrgIdentity Complex Type

The EducationalOrgIdentity Complex Type provides user information to look up and link to an existing educational organization record in the receiving system.

FISCAL-AGENT-DISTRICT-ID (E0777) is the county-district number of the shared services arrangement fiscal agent registered with the Texas Education Agency.

If the fiscal agent is a county, enter the county number for the leftmost three digits of FISCAL-AGENT-DISTRICT-ID, and enter 000 for the rightmost three digits.

For a fiscal agent, the DISTRICT-ID and FISCAL-AGENT-DISTRICT-ID will be the same.

When the fiscal agent reports its own SSAOrgAssociationExtension Complex Type, the fiscal agent reports a record for each shared services arrangement regardless of whether it participates as a member.

FISCAL-AGENT-DISTRICT-ID is the fiscal agent district ID number. The fiscal agent district is responsible for reporting:

- the actual financial data for the prior school year for the shared services arrangement, and
- personnel, payroll, and responsibility information for all administrative and
- all itinerant employees who are paid by the fiscal agent, whether or not these employees are shared by the member districts.

The other member district (Member #2) will pay \$25,000 for a remedial reading teacher at campus 041. The fiscal agent will retain \$25,000 to employ a remedial math teacher that will work 50% of the time at both schools, at the same campus as the reading programs. The remaining \$30,000 will be retained by the fiscal agent to employ a program director to serve both school districts.
