

Notice of Cybersecurity Code Table Changes
for PEIMS Summer Submission 2018-2019
March 27, 2019

TSDS PEIMS Coordinators and Vendors:

Since the August 1, 2018 publication of the Post-Addendum version 2019.2.1 of the 2018-2019 Texas Student Data System (TSDS) Texas Education Data Standards (TEDS), some changes have been made to address program area requirements that impact the PEIMS Summer Submission.

This notice is to inform you about three revisions to high school cybersecurity courses in the C022 SERVICE-ID Code Table effective with the 2018-2019 PEIMS Summer submission.

These changes are not reflected in the TEDS documents for 2018-2019.

Code Table Revisions

Although these are not CTE courses, the following adjustment allows these courses to be eligible for Career and Technical Education (CTE) weighted funding.

Refer to this TAA letter for more information:

[Implementation of House Bill \(HB\) 3593, High School Cybersecurity Courses/](#)

Code Table	Code	Previous Entry	Current Entry
C022 SERVICE-ID	03580140	Fundamentals of Computer Science CTE Course = blank	Fundamentals of Computer Science CTE Course = H
C022 SERVICE-ID	03580200	Computer Science I CTE Course = blank	Computer Science I CTE Course = H
C022 SERVICE-ID	A3580300	AP Computer Science Principles CTE Course = blank	AP Computer Science Principles CTE Course = H
