Assessment Category

The Assessment Category represents the metadata about assessments, specifically the definitions of the assessments, the learning objectives, learning standards and the assessment items.

This category includes:

- Complex type data layouts, which show the relationship of data submissions to the Education Organization Category. Also described is the information on the data submission for the current school year for LEAs submission of data to the ESCs and ESCs submission of data to TEA;
- Asterisks (**) that appear in the complex type data layouts indicate that there is a complex type within a complex type. The Element Ids that are indented identify the data elements that are part of the complex type denoted with asterisks (**).
- Data rows that are in gray and italicized represent complex types and data elements that are part of the Ed-Fi Core Schema, but not for Texas use at this time.
- Category type discussions which describe information related to each particular record type;
- Data submission samples, which provide samples of how to submit the data for each category.

Description

The Assessment Complex Type represents a tool, instrument, process, or exhibition composed of a systematic sampling of behavior for measuring a student's competence, knowledge, skills or behavior. An assessment can be used to measure differences in individuals or groups and changes in performance from one occasion to the next.

Reporting Requirements

Currently, there are no reporting requirements.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

id is an XML generated XML ID associated with this complex type.

ASSESSMENT-TITLE (E1127) is the title or name of the assessment.

ASSESSMENT-TITLE uses code table DC154 when data is being reported for the Early Childhood Data System (ECDS) collection.

**AssessmentIdentificationCode Complex Type

The AssessmentIdentificationCode Complex Type is a unique number or alphanumeric code assigned to an assessment by a school, school system, a state, or other agency or entity.

ASSESSMENT-IDENTIFICATION-SYSTEM (E1142) is a coding scheme that is used for identification and record-keeping purposes by schools, social services, or other agencies to refer to an assessment.

ASSESSMENT-ASSIGNING-ORGANIZATION-CODE (E1508) is the organization code or name assigning the assessment identification code.

ASSESSMENT-IDENTIFICATION-CODE (E1144) is a unique number or alphanumeric code assigned to an assessment by a school, school system, a state, or other agency or entity.

ASSESSMENT-CATEGORY (E1128) is the category of an assessment based on format and content. For example: achievement test, advanced placement test, alternate assessment/grade-level standards, attitudinal test, and cognitive and perceptual skills test.

ACADEMIC-SUBJECT (E1097) is the description of the content or subject area (e.g., arts, mathematics, reading, stenography, or a foreign language) of an assessment.

ASSESSMENT-GRADE-LEVEL-ASSESSED (E1129) is the typical grade level for which an assessment is designed. For example: Adult, Prekindergarten, First grade, Second grade.

LOWEST-GRADE-LEVEL-ASSESSED (E1130) is used if the assessment spans a range of grades, then this attribute holds the lowest grade assessed. If only one grade level is assessed, then this attribute is omitted. For example: Adult Prekindergarten, First grade, Second grade.

**AssessmentPerformanceLevel Complex Type

The AssessmentPerformanceLevel Complex Type is the definition of the performance levels and the associated cut scores.

Three styles are supported:

- 1) Specification of performance level by min and max score
- 2) Specification of performance level by cut score - min only
- 3) Specification of performance level without any mapping to scores

**PerformanceLevel Complex Type

The PerformanceLevel Complex Type represents the performance level(s) defined for the assessment.

PERFORMANCE-LEVEL-DESCRIPTOR-CODE-VALUE (E1327) is a code or abbreviation that is used to refer to a Performance Level, for example: Passing, Standard, and Commended.

PERFORMANCE-LEVEL-DESCRIPTOR-DESCRIPTION (E1328) is the description of the Performance Level

PERFORMANCE-LEVEL-MET (E1480) is an optional indicator of whether the performance level was met. When null, means that the performance level was met (equivalent to PerformanceLevelMet = TRUE).

ASSESSMENT-REPORTING-METHOD (E1154) is the method that the administrator of the assessment uses to report the performance and achievement of all students. It may be a qualitative method such as performance level descriptors or a quantitative method such as a numerical grade or cut score. More than one type of reporting method may be used.

PERFORMANCE-LEVEL-MIN-SCORE (E1329) is the minimum score required to make the indicated level of performance.

PERFORMANCE-LEVEL-MAX-SCORE (E1330) is the maximum score to make the indicated level of performance.

CONTENT-STANDARD (E1131) is an indication as to whether an assessment conforms to a standard. For example: Local Standard, Statewide Standard, Regional Standard, Association Standard, or School Standard.

ASSESSMENT-FORM (E1132) identifies the form of the assessment, for example a regular versus makeup form, multiple choice versus constructed response, etc.

ASSESSMENT-VERSION (E1133) is the version identifier for the assessment.

ASSESSMENT-REVISION-DATE (E1134) is the month, day, and year that the conceptual design for the assessment was most recently revised substantially.

MAX-RAW-SCORE (E1135) is the maximum raw score achievable across all assessment items that are correct and scored at the maximum.

ASSESSMENT-NOMENCLATURE (E1136) reflects the specific nomenclature used for Assessment.

****AssessmentPeriod Complex Type**

The AssessmentPeriod Complex Type is the period or window in which an assessment is supposed to be administered.

ASSESSMENT-PERIOD-DESCRIPTOR-SHORT-DESCRIPTION (E1151) is a shortened description for reference.

****AssessmentItemReference Complex Type**

The AssessmentItemReference Complex Type is the reference to the assessment item responded to by the student.

**** Reference Complex Type**

The Reference Complex Type is the base type for association references.

ref is an XML generated XML IDREF that references the object associated with this object.

****ObjectiveAssessmentReference Complex Type**

The ObjectiveAssessmentReference Complex Type references subtests that test specific learning objectives.

**** Reference Complex Type**

The Reference Complex Type is the base type for association references.

ref is an XML generated XML IDREF that references the object associated with this object.

****SectionReference Complex Type**

The SectionReference Complex Type is the reference to the section associated with the assessment.

****SectionIdentity Complex Type**

The SectionIdentity Complex Type represents the attributes used to specify a section.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency. It is the linking of DISTRICT-ID with the campus identification number associated with the section. An instructional campus: 1) has an assigned administrator, 2) has enrolled students who are counted for average

LOCAL-COURSE-CODE (E1194) is the local code assigned by the School that identifies the course offering provided for the instruction of students.

SCHOOL-YEAR (E1093) is the identifier for the school year.

SECTION-TERM (E1367) is the type of the section during the school year.

CLASS-PERIOD (E1074) is the class period identifier that illustrates the time of the school day that a particular class was offered.

LOCATION (E1368) is the location, typically a classroom, where the section meets.

REPORT-ASSESSMENT-TYPE (E1573) indicates the TEA collection for which the assessment should be reported.

Example(s)

None

Data Sample(s)

See Section 7 for XML Data Samples

60010 – AssessmentPeriodDescriptor Complex Type

Element ID	Data Element	XMLName	TSDS		PEIMS								Len	Data Type	Code Table ID	
			TSDS	M	1	1 M	2	2 M	3	3 M	4	4 M				
E1149	ASSESSMENT-PERIOD-CODE-VALUE	CodeValue	Y	Y										20	STRING	
E1150	ASSESSMENT-PERIOD-DESCRIPTOR-DESCRIPTION	Description	Y	Y										1024	STRING	
E1151	ASSESSMENT-PERIOD-DESCRIPTOR-SHORT-DESCRIPTION	ShortDescription	Y	Y										50	STRING	
E1152	ASSESSMENT-PERIOD-BEGIN-DATE	BeginDate	Y											10	CODED	
E1153	ASSESSMENT-PERIOD-DESCRIPTOR-END-DATE	EndDate	Y											10	CODED	

Description

The descriptor holds the period or window in which an assessment is supposed to be administered (e.g., Beginning of Year, Middle of Year, and End of Year).

Reporting Requirements

Currently, there are no reporting requirements.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

ASSESSMENT-PERIOD-CODE-VALUE (E1149) is a code or abbreviation that is used to refer to an Assessment Period.

ASSESSMENT-PERIOD-DESCRIPTOR-DESCRIPTION (E1150) is the description of the Assessment Period.

ASSESSMENT-PERIOD-DESCRIPTOR-SHORT-DESCRIPTION (E1151) is a shortened description for reference.

ASSESSMENT-PERIOD-BEGIN-DATE (E1152) is the first date the assessment is to be administered.

ASSESSMENT-PERIOD-DESCRIPTOR-END-DATE (E1153) is the last date the assessment is to be administered.

Example(s)

None

Data Sample(s)

See Section 7 for XML Data Samples

60010 – PerformanceLevelDescriptor Complex Type

Element ID	Data Element	XMLName	TSDS		PEIMS								Len	Data Type	Code Table ID	
			TSDS	M	1	1 M	2	2 M	3	3 M	4	4 M				
E1327	PERFORMANCE-LEVEL-DESCRIPTOR-CODE-VALUE	CodeValue	Y											20	STRING	
E1328	PERFORMANCE-LEVEL-DESCRIPTOR-DESCRIPTION	Description	Y	Y										1024	STRING	
E1471	PERFORMANCE-BASE-CONVERSION	PerformanceBaseConversion	Y											16	STRING	DC151

Description

This descriptor defines various levels or thresholds for performance on the assessment.

Reporting Requirements

Currently, there are no reporting requirements.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

PERFORMANCE-LEVEL-DESCRIPTOR-CODE-VALUE (E1327) is a code or abbreviation that is used to refer to a Performance Level. For example: Passing, Standard or Commended.

PERFORMANCE-LEVEL-DESCRIPTOR-DESCRIPTION (E1328) is the description of the Performance Level.

PERFORMANCE-BASE-CONVERSION (E1471) is a conversion of the level to a standard set of performance levels.

Description

This represents subtests that assess specific learning objectives.

Reporting Requirements

Currently, there are no reporting requirements.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

id is an XML generated XML ID associated with this complex type.

OBJECTIVE-ASSESSMENT-IDENTIFICATION-CODE (E1305) is a unique number or alphanumeric code assigned to a space, room, site, building, individual, organization, program, or institution by a school, school system, a state, or other agency or entity.

MAX-RAW-SCORE (E1135) is the maximum raw score achievable across all assessment items that are correct and scored at the maximum.

****AssessmentPerformanceLevel**

****PerformanceLevel**

PERFORMANCE-LEVEL-DESCRIPTOR-DESCRIPTION (E1135) is the description of the Performance Level.

PERFORMANCE-LEVEL-MET (E1480) is an Optional indicator of whether the performance level was met. When null, means that the performance level was met (equivalent to PerformanceLevelMet = TRUE).

ASSESSMENT-REPORTING-METHOD (E1154) is the method that the administrator of the assessment uses to report the performance and achievement of all students. It may be a qualitative method such as performance level descriptors or a quantitative method such as a numerical grade or cut score. More than one type of reporting method may be used.

PERFORMANCE-LEVEL-MIN-SCORE (E1329) is the minimum score required to make the indicated level of performance.

PERFORMANCE-LEVEL-MAX-SCORE (E1330) is the maximum score to make the indicated level of performance.

PERCENT-OF-ASSESSMENT (E1496) is the percent of the assessment that tests this objective.

OBJECTIVE-ASSESSMENT-NOMENCLATURE (E1306) reflects the specific nomenclature used for this level of ObjectiveAssessment.

****AssessmentItemReference**

ref is an XML generated XML IDREF that references the object associated with this object.

****LearningObjectiveReference**

ref is an XML generated XML IDREF that references the object associated with this object.

****LearningStandardReference**

ref is an XML generated XML IDREF that references the object associated with this object.

Example(s)

None

E1482	LEARNING-STANDARD-CONTENT-STANDARD-ID	IdentificationCode	Y	Y												
E1147	ASSESSMENT-ITEM-NOMENCLATURE	Nomenclature	Y													

Description

The AssessmentItem Complex Type represents one of many single measures that make up an assessment.

Reporting Requirements

Currently, there are no reporting requirements.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

id is an XML generated XML ID associated with this complex type.

ASSESSMENT-ITEM-IDENTIFICATION-CODE (E1148) is a unique number or alphanumeric code assigned to a space, room, site, building, individual, organization, program, or institution by a school, school system, a state, or other agency or entity.

ITEM-CATEGORY (E1145) is the category or type of the assessment item (ex. Multiple choice, Analytic Prose, MaxRawScore).

MAX-RAW-SCORE (E1135) is the maximum raw score achievable if all assessment items are correct and scored at the maximum.

CORRECT-RESPONSE (E1146) is the correct response for the assessment item.

**LearningStandardReference Complex Type

The LearningStandardReference Complex Type is the reference to the Learning Standard(s) to be taught by the course.

** LearningStandardIdentity Complex Type

The Reference Complex Type is the base type for association references.

**LearningStandardId

LEARNING-STANDARD-CONTENT-STANDARD-ID (E1482) is a unique number or alphanumeric code assigned to a learning standard.

ASSESSMENT-ITEM-NOMENCLATURE (E1147) reflects the specific nomenclature used for Assessment Item.

Example(s)

None

Data Sample(s)

See Section 7 for XML Data Samples

**	<i>Reference Complex Type</i>	<i>LearningObjectiveReference</i>														

Description

The LearningObjective Complex Type represents identified learning objectives for courses in specific grades.

Reporting Requirements

Currently, there are no reporting requirements.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

id is an XML generated XML ID associated with this complex type.

**LearningObjectiveld Complex Type

The LearningObjectiveld Complex Type represents the identifier for the specific learning objective in the context of a standard (e.g., 111.15.3.1.A)

LEARNING-OBJECTIVE-CONTENT-STANDARD-NAME (E1483) is the name of the content standard from which the

learning standard was derived.

LEARNING-OBJECTIVE-STANDARD-ID (E1514) is a unique number or alphanumeric code assigned to a learning standard.

LEARNING-OBJECTIVE (E1272) is the designated title of the learning objective.

LEARNING-OBJECTIVE-DESCRIPTION (E1273) is the description of the learning objective.

ACADEMIC-SUBJECT (E1097) is the description of the content or subject area (e.g., arts, mathematics, reading, stenography, or a foreign language) of an assessment.

LEARNING-OBJECTIVE-GRADE-LEVEL (E1274) is the grade level for which the learning objective is targeted.

****LearningStandardReference Complex Type**

The LearningStandardReference Complex Type is the reference to the learning standard(s) included in this objective.

**** LearningStandardIdentity Complex Type**

The Reference Complex Type is the base type for association references.

****LearningStandardID**

LEARNING-STANDARD-CONTENT-STANDARD-ID (E1482) is a unique number or alphanumeric code assigned to a learning standard.

Example(s)

None

Data Sample(s)
