Summary of Requirements

1. The USDE requires that ethnicity and race be collected separately using a specific two-part question, presented in a specific order. Both parts of the question must be answered.

Part 1. Ethnicity: Is the person Hispanic/Latino? Choose only one.

- Hispanic/Latino
- Not Hispanic/Latino

Part 2. Race: What is the person's race? Choose one or more regardless of ethnicity.

- a. American Indian or Alaska Native
- b. Asian
- c. Black or African American
- d. Native Hawaiian/Other Pacific Islander
- e. White

2. Respondents may select only one category for ethnicity, but may select multiple designations for race.
3. The categories for ethnicity are “Hispanic/Latino” and “Not Hispanic/Latino”. Regardless of the category selected for ethnicity, respondents must still select one or more categories for race.
4. One of the major changes is the recognition that members of Hispanic populations can be of different races. The federal government would like to afford Hispanic/Latino populations the opportunity to better describe themselves according to their culture and heritage.
5. An additional category for race was created by separating “Asian or Pacific Islander” into two separate categories. The categories for race include “American Indian or Alaska Native”, “Asian”, “Black or African American”, “Native Hawaiian or Other Pacific Islander”, and “White”. Note that Hispanic/Latino is not a racial category.
6. The categories to be used when reporting aggregate data to the USDE differ from the categories to be used for data collection. Each student or staff member is associated with only one of the seven aggregate reporting categories listed below. Use of these seven categories for aggregate reporting eliminates the possibility of counting an individual twice.
 - Hispanic/Latino
 - American Indian or Alaska Native
 - Asian
 - Black or African American
 - Native Hawaiian or Other Pacific Islander
 - White
 - Two or More Races

Respondents who select “Hispanic/Latino” for ethnicity will be counted in this category for aggregate reporting to the USDE, regardless of the responses provided to the question on race.

Respondents who select “Not Hispanic/Latino” for ethnicity, and select more than one category for race, will be counted in the category “Two or More Races” for aggregate reporting to the USDE.

Respondents, who select “Not Hispanic/Latino” for ethnicity, and select only one category for race, will be counted in the single racial category for aggregate reporting to the USDE.

7. Educational institutions must retain all original, individual responses for a minimum of 3 years, unless there is litigation, a claim, an audit, investigation or other action involving the records that has commenced before the three-year period ends, in which case the responses must be retained until the action is complete.

Collecting the Information

Self-identification by an individual staff member, or by the parent or guardian in the case of a student, is the preferred method for collecting information on ethnicity and race. The most important guidance for self-identification is that the information should be based solely on the choice of the respondent as to the racial and ethnic groups with which they personally identify. In the event that there appears to be a question as to which ethnic or racial category is most appropriate, the respondent should select the category with which they personally identify. Any attempt to validate the individual's selections should be avoided.

The Texas Education Agency has requested and received additional clarification from the USDE on the definition of American Indian or Alaska Native. Based on the information we have received, an individual does not have to be a tribal member in order to select this option.

To ensure uniformity, TEA has developed a standard form for use by all districts in collecting ethnicity and race information. Please see Exhibit 1A for the English version and Exhibit 1B for the Spanish version.

For Students

Upon enrollment in a school district or charter school, all families must be given an opportunity to identify ethnicity and race information for their school aged children. The district should request that a student's parent or guardian identify the student's ethnicity and race. However, the parent or guardian is not required to provide this information; nor is it a requirement for enrolling the student. If the parent or guardian declines to provide the information, the USDE requires that the school district employ observer identification as a last resort to gather this information for federal reporting.

For Staff

Upon employment, all staff persons must be given an opportunity to identify their ethnicity and race information. The district should request that individuals self-identify their own ethnicity and race. If a person declines to provide the information, the district is required to employ observer identification as a last resort to gather this information.

USDE Ethnicity and Race Reporting Standards

As of December 2007, state and local education organizations are required to adopt the federal standard for collecting race and ethnicity data for students and staff. Below are the reporting standards.

Federal Standards (1997)
Ethnicity Category
Individuals are now asked to choose an ethnicity (Hispanic/Latino or Not Hispanic/Latino) as the first part of a 2 part question, as well as race(s).
Race Category
American Indian or Alaska Native
Asian
Native Hawaiian or Other Pacific Islander
Black or African American
White
Individual Data Collection Format
Respondents are asked to select both an ethnicity and 1 or more of the above 5 racial categories. (Hispanic/Latino is considered an ethnicity, not a race category.)
A 2 part question is mandatory, with the ethnicity part asked first.
Ethnicity (Choose one): <ul style="list-style-type: none"> • Hispanic/Latino • NotHispanic/Latino
Race (Choose 1 or more, regardless of ethnicity) <ul style="list-style-type: none"> • American Indian or Alaska Native • Asian • Native Hawaiian or Other Pacific Islander • Black or African American • White
Minimum Federal Reporting Categories
Each student or staff member is associated with exactly 1 of the 7 aggregate reporting categories. <ul style="list-style-type: none"> • Hispanic/Latino • American Indian or Alaska Native • Asian • Native Hawaiian or Other Pacific Islander • Black or African American • White • Two or more races
Missing Information
Individuals (or students' parents) are asked to self-identify themselves. Observer identification is required if individuals decline to choose a race/ethnicity.
Record Keeping
Three years. However, if there is litigation, a claim, an audit, or another action involving the records, original responses must be retained until the completion of the action.
