Education Organization Category

The Education Organization Category provides information about the state education agency, education service centers, local education agencies (school districts and charter schools), and campuses. This data category supports the definition of the education offerings provided by campuses, specifically the courses taught, the sections in each course offered and the class period and location of those sections, and the alternative/supplemental programs offered.

The shared services arrangement (SSA) participation data is also reported for each organization type when applicable. This category includes:

- Complex type data layouts, which show the relationship of data submissions to the Education Organization Category.
- Also described is the information on the data submission for the current school year for LEAs submission of data to the ESCs and ESCs submission of data to TEA;
- Asterisks (**) that appear in the complex type data layouts indicate that there is a complex type within a complex type. The Element Ids that are indented identify the data elements that are part of the complex type denoted with asterisks (**).
- Data rows that are in gray and italicized represent complex types and data elements that are part of the Ed-Fi Core Schema, but not for Texas use at this time.
- Category type discussions which describe information related to each particular record type;
- Data submission samples, which provide samples of how to submit the data for each category.

Description

The EducationServiceCenter Complex Type represents a regional, multi-services public agency authorized by state law to develop, manage, and provide services, programs, or other optional support (e.g., construction, food services, and technology services) to LEAs.

Reporting Requirements

For Dashboard reporting, do not submit the EducationServiceCenter Complex Type. Use the LocalEducationAgency Complex Type to report the Education Service Center (ESC).

For PEIMS reporting, the EducationServiceCenter Complex Type is required for PEIMS Submissions 1 and 2 only for ESCs. Report only one ESC per XML file.

An ESC cannot report the EDUCATION-SERVICE-CENTER-ID of another ESC within their data submission file.

Special Reporting Requirements

ESC organization changes must be updated through the AskTED system prior to submitting its respective data in order for the TSDS system to accurately identify an ESC during the data submission process.

Business Rules

EDUCATION-SERVICE-CENTER-ID (E1091) indicates the ESC identification number registered with the Texas Education Agency. The EDUCATION-SERVICE-CENTER-ID must match the 'District Code' in the data submission file name.

Description

The LocalEducationAgency (LEA) Complex Type represents an administrative unit at the local level which exists primarily to operate schools or to contract for educational services. It includes school districts, charter schools, charter management organizations, and other local administrative organizations.

The Local Education Agency is defined as follows:

A public board of education or other public authority legally constituted within a state for either administrative control of or direction of, or to perform service functions for, public elementary or secondary schools in:

- 1) A city, county, township, school district, or other political subdivision of a state; or
- 2) Such combination of school districts or counties a state recognizes as an administrative agency for its public elementary or secondary schools; or
- 3) The term also includes any other public institution or agency that has administrative control and direction of a vocational education program.

Reporting Requirements

For TSDS, Dashboard, and PEIMS reporting, if the LocalEducationAgencyExtension Complex Type is submitted, report only one LEA record.

Special Reporting Requirements

LEA organization changes must be updated through the AskTED system prior to submitting its respective data in order for the TSDS system to accurately identify an LEA during the data submission process.

Business Rules

LocalEducationAgency Complex Type

id is an XML generated XML ID associated with this complex type.

DISTRICT-ID (E0212) is the county-district number registered with TEA for that district or charter school.

The DISTRICT-ID must match the value for the 'District Code' in the data submission file name.

WEBSITE (E1237) is the public web site address (URL) for the educational organization.

**AccountabilityRatings Complex Type

This AccountabilityRatings Complex Type includes the accountability ratings assessed for the education organization.

RATING-TITLE (E1102) is the title of the rating (e.g., School Rating, Safety Score, etc.)

RATING (E1103) is an accountability rating level, designation, or assessment.

RATING-DATE (E1104) is the date the rating was awarded.

ACCOUNTABILITY-RATING-SCHOOL-YEAR (E1461) is the school year for which the accountability rating is assessed.

RATING-ORGANIZATION (E1105) is the organization that assessed the rating.

RATING-PROGRAM (E1106) is the program associated with the accountability rating (e.g., NCLB, TAPR)

**ProgramReference Complex Type

The ProgramReference Complex Type includes the programs offered at the education organization.

All programs are currently associated to the LocalEducationAgencyExtension Complex Type and not the SchoolExtension Complex Type.

**Reference Complex Type

The Reference Complex Type is the base type for association references.

ref is an XML generated XML IDREF that references the object associated with this object.

LocalEducationAgencyExtension Complex Type

TOTAL-NUM-SCHOOL-BOARD-REQUESTS (E1556) indicates the total number of requests submitted outside of a school board meeting by a member of the trustees (school board) for information, documents, and records as specified in TEC SECTION 11.1512.

The data collection period for E1556 is from June 1 through May 31 of each year.

TOTAL-COST-SCHOOL-BOARD-REQUESTS (E1557) indicates the total cost of fulfilling requests submitted outside of a school board meeting by a member of the trustees (school board) for information, documents, and records as specified in TEC SECTION 11.1512.

The data collection period for E1557 is from June 1 through May 31 of each year.

Each district may choose its own way of determining the total cost of fulfilling school board requests. The legislation that mandates the reporting of total cost, Texas Education Code §11.1512, does not specify how to determine total cost. If a district would like guidance, please refer to Title 1, Part 3, §70.3, of the Texas Administrative Code (TAC), Charges for Providing Copies of Public Information. TAC §70.3 was written for recovering the cost of responding to information requests and not for determining the cost of fulfilling school board requests; however, it may be helpful as an example of how to determine cost.

[School Board Data Request Cost Calculation Guidelines](#)

FAMILY-ENGAGEMENT-PLAN-LINK (E1583) indicates the internet website link for LEAs to provide their Family Engagement Plan.

The FAMILY-ENGAGEMENT-PLAN-LINK will need to remain active for as long as the district is using funds for a High-Quality Pre-K program.

ARMED-SERVICES-VOC-APT-BATTERY-INDICATOR-CODE (E1625) indicates whether a school district or open-enrollment charter school provides students in grades 10 through 12 an opportunity to take the Armed Services Vocational Aptitude Battery (ASVAB) test or a comparable substitute.

ARMED-SERVICES-VOC-APT-BATTERY-INDICATOR-CODE is a mandatory field and is only reported in PEIMS Submission 1.

If an LEA offers both the ASVAB and an alternative career exploration test, the LEA should report code "01" indicating the ASVAB is offered. Code '02' (Alternative Career Exploration Test) is only reported when the LEA offers only an alternative career exploration test.

****TX-ProgramsOfStudy Complex Type**

The TX-ProgramsOfStudy Complex Type represents which programs of study the LEA is offering.

PROGRAM-OF-STUDY (E1643) indicates a program of study the LEA offers.

A program of study is a comprehensive, structured approach for delivering academic and career and technical education to prepare a student for postsecondary education and career success.

The PROGRAM-OF-STUDY data element is an unbounded data element within the TX-ProgramsOfStudy sub-complex type. Therefore, the PROGRAM-OF-STUDY data element can be repeated within the TX-ProgramsOfStudy sub-complex type.

The LEA should report each program of study offered.

There are state and region level programs of study. Region level programs of study are only applicable to specific regions.

Description

The SchoolExtension complex type represents an educational organization that includes staff and students who participate in classes and educational activity groups.

Reporting Requirements

For Dashboard reporting, an LEA must report at least one active instructional campus that is registered through AskTED with the Texas Education Agency.

For PEIMS reporting, every LEA must report the appropriate campus data based on the collection and status of the campus in AskTED:

PEIMS Submission 1:

Report one SchoolExtension complex type for each active instructional or under construction campus that is registered in AskTED.

PEIMS Submission 2:

Report one SchoolExtension complex type for each campus that was registered in AskTED in the prior school year as active instructional or under construction.

PEIMS Submission 3:

Report one SchoolExtension complex type for each active instructional campus that is registered in AskTED.

PEIMS Submission 4:

Report one SchoolExtension complex type for any campus that is reporting students in this collection (such as students serviced through the Extended School Year (ESY) Services Program or Flexible Attendance Program).

A LEA cannot report the CAMPUS-ID of another LEA in the SchoolExtension Complex Type.

Texas Education Agency will pre-populate the Education Data Warehouse (EDW) with the AskTED education organization data that is centrally managed by the Texas Education Agency. However, an LEA may populate the education organization data from the source system, but data will be overridden with information from AskTED.

Special Reporting Requirements

Campus organization changes must be updated through the AskTED system prior to submitting its respective data in order for the TSDS system to accurately identify a campus during the data submission process.

Business Rules

id is an XML generated XML ID associated with this complex type.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency (TEA). It is the linking of DISTRICT-ID with the campus identification number.

An instructional campus:

- 1) has an assigned administrator,
- 2) has enrolled students who are counted for average daily attendance,
- 3) has assigned instructional staff,
- 4) receives federal and/or state and/or local funds as its primary support,
- 5) provides instruction in the Texas Essential Knowledge and Skills (TEKS),
- 6) has one or more grade groups in the range from early education through grade 12, and
- 7) is not a program for students enrolled in another public school.

An alternative instructional unit:

- 1) is an instructional site, center, program, or arrangement that is not governed by an individual campus organization, and
- 2) does not meet the above standard definition of an instructional campus.

The campuses reported on the SchoolExtension Complex Type must match a campus registered with the TEA for the current year.

A campus must not be reported with a number greater than 698.

The first 6 characters of CAMPUS-ID must match the value of the DISTRICT-ID in the LEA's LocalEducationAgencyExtension Complex Type.

WEBSITE (E1237) is the public web site address (URL) for the educational organization.

****AccountabilityRatings Complex Type**

This AccountabilityRatings Complex Type includes the accountability ratings assessed for the education organization.

RATING-TITLE (E1102) is the title of the rating (e.g., School Rating, Safety Score, etc.)

RATING-PROGRAM (E1106) is the program associated with the accountability rating (e.g., NCLB, TAPR)

****ProgramReferenceComplex Type**

The ProgramReference Complex Type includes the programs offered at the education organization.

ref is an XML generated XML IDREF that references the object associated with this object.

TITLE-I-PART-A-CAMPUS-DESIGNATION (E1355) denotes the Title I Part A designation for the school.

****LocalEducationAgencyReference Complex Type**

The LocalEducationAgencyReference Complex type represents the LEA of which the School is an organizational component.

ref is an XML generated XML IDREF that references the object associated with this object.

****EducationalOrgIdentity Complex Type**

The EducationalOrgIdentity Complex Type provides user information to look up and link to an existing educational organization record in the receiving system.

DISTRICT-ID (E0212) indicates the district identification number registered with the Texas Education Agency.

****ClassPeriodReference Complex Type**

ClassPeriodReference is a reference to the corresponding ClassPeriod complex type which are the class periods defined for a campus.

**** Reference Complex Type**

The Reference Complex Type is the base type for association references.

ref is an XML generated XML IDREF that references the object associated with this object.

****LocationReference Reference Complex Type**

LocationReference is a reference to the Location complex type which is the available class locations offered for the campus.

**** Reference Complex Type**

The Reference Complex Type is the base type for association references.

ref is an XML generated XML IDREF that references the object associated with this object.

CAMPUS-ENROLLMENT-TYPE-CODE (E1641) specifies the method by which the campus draws student enrollment. This data element is reported in the PEIMS Fall Submission and remains constant throughout the school year.

NSLP-TYPE-CODE (E1591) indicates a campus's National School Lunch Program (NSLP) participation status. The NSLP provides reimbursement to schools for free or reduced-price meals based on student eligibility. Options for claiming reimbursement under the NSLP include: eligibility determined at the individual student/family level (participation in NSLP without using any Provision or the Community Eligibility Provision (CEP)) or at the campus/community level (Provision 2 or Community Eligibility Provision).

The NSLP-TYPE-CODE is reported in PEIMS Submission 1 only.

Following are the data sources to be used to document each code:

For code 01 - The Standard Accounting and Claiming option requires that participating schools distribute and retrieve the official NSLP application forms for each family enrolling students in the school.

For code 02 - The Provision 2 option requires that schools distribute and retrieve the official NSLP application forms for each family enrolling students in the school in the first year of operation only.

For code 03 - The CEP option describes a lunch program where schools do not distribute and retrieve the official NSLP application form for each family enrolling students in this school. Instead, schools participating in the CEP program, use the direct certification list as provided by the Texas Department of Agriculture.

EXPANDED-LEARNING-OPPORTUNITY-INDICATOR-CODE (E1613) indicates the campus offers, or the student participates in an expanded learning opportunity (ELO) as listed in TEC 33.252.

In the SchoolExtension Complex Type the EXPANDED-LEARNING-OPPORTUNITY-INDICATOR-CODE data element only refers to the campus offerings of an expanded learning opportunity.

The EXPANDED-LEARNING-OPPORTUNITY-INDICATOR-CODE is reported only for PEIMS Submissions 3 and 4.

**** TX-SchoolELOS Complex Type ****

The TX-SchoolELOS Complex Type captures data for school participation in an expanded learning opportunity. If the school offers an expanded learning opportunity program, then the following elements (E1614-E1621) must be reported.

The TX-SchoolELOS Complex Type is reported only for PEIMS Submissions 3 and 4.

**** TX-SchoolELO Complex Type****

ELO-TYPE-CODE (E1614) indicates the type of expanded learning opportunity (ELO) program offered at the campus or the type of expanded learning opportunity (ELO) participated in by the student.

In the TX-SchoolELOS Complex Type the ELO-TYPE-CODE data element only refers to the campus offerings of an expanded learning opportunity program.

ELO-MINUTES-SCHEDULED-PER-DAY (E1621) indicates the number of minutes scheduled for an Expanded Learning Opportunity (ELO) each day.

Description

The SectionExtension Complex Type represents a setting in which organized instruction of course content is provided to one or more students for a given period of time. This complex type lists the current year courses taken by a student or taught by a teacher. A course may be offered to more than one class/section. Instruction, provided by one or more teachers or other staff members, may be delivered in person or via a different medium.

Reporting Requirements

The SectionExtension Complex Type inherits data elements from the Section Complex Type.

Information from the SectionExtension Complex Type is used to capture the complete course offerings for a particular campus. This information is then used for translating the data submitted for staff and student course participation in order to identify the classes enrolled in by students and classes taught by teachers.

There are two different data collection purposes that are served by the reporting of the SectionExtension Complex type data in the PEIMS Summer Submission. The first is for course sections that are completed for high school courses. The second is for Texas Virtual School Network course sections that are completed by students in grades 3-12.

For the PEIMS Summer Submission, one SectionExtension Complex Type must be submitted for each reportable unique high school course and for all courses offered via the Texas Virtual School Network (TxVSN) Online Schools program (grade levels 3-12) or the TxVSN Statewide Course Catalog (grade levels 9-12) that were completed during the school year. Report all courses offered through a campus regardless of the method of instructional delivery.

For the Class Roster collection, each SectionExtension Complex Type reported where NON-CAMPUS-BASED-INSTRUCTION-CODE is '00', there must be a matching TeacherSectionAssociationExtension Complex Type (CAMPUS-ID, SERVICE-ID, CLASS-ID-NUMBER, and COURSE-SEQUENCE-CODE), where CLASSROOM-POSITION-TYPE is '01' (Teacher of Record). This rule ensures that each course section offered at a campus that should have a teacher assigned to it, does indeed have a teacher reported for that section.

For each SectionExtension Complex Type, there must be a matching StudentSectionAssociation Complex Type where CAMPUS-ID, CLASS-ID-NUMBER, and COURSE-SEQUENCE-CODE is the same. This rule ensures that each course section offered at a campus has at least one student assigned to that course section.

For students that are placed in or are expelled to a DAEP program, or expelled to a JJAEP, the campus that enrolls the student during these disciplinary removals is responsible for creating the SectionExtension Complex Type(s) that reflect the new course sections to which the student has been assigned while attending a DAEP or a JJAEP.

For the SectionExtension Complex Type, do not include courses with SERVICE-IDs that begin with SA, SE, SR, SS, or 8. This rule is enforced by a fatal validation rule.

For the ECDS collection, each campus that enrolls and serves prekindergarten and kindergarten students must report at least one SectionExtension Complex Type for every prekindergarten or kindergarten course taught. Course sections for students in grade level EE are not reported. LEAs must begin tracking the course sections for reporting purposes as of the first day of school.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

CLASS-ID-NUMBER (E1056) is a number identifying a unique course section that is unique for a particular school year, Campus, and SERVICE-ID.

CLASS-ID-NUMBER must be unique such that multiple teachers can be linked to a single course section through the Teacher Assignment Records and students enrolled in a unique course section can be identified by the CLASS-ID-NUMBER on the SectionExtension Complex Type.

SEQUENCE-OF-COURSE (E1363) When a section is part of a sequence of parts for a course, the value of this section attribute should be the number of the sequence. If the course has only one part, the value of this section attribute should be 1.

POPULATION-SERVED (E1362) is the population for which the course was designed. For example: Bilingual students, Remedial education students, Gifted and talented students, Career and Technical Education students, Special education students.

****AvailableCredit Complex Type**

The AvailableCredit Complex Type represents the amount of credit available to a student who successfully meets the objectives of the course. Available credits are measured in Carnegie units. A course meeting every day for one period of the school day over the span of a school year offers one Carnegie unit. See publication: U.S. Department of Education, NCES, 2007-341, Secondary School Course Classification System: School Codes for the Exchange of Data (SCED).

SectionExtension Complex Type

SCHOOL-YEAR (E1093) is the identifier for the school year for the course section.

SCHOOL-YEAR is the calendar year that identifies the spring semester for a particular school year.

SCHOOL-YEAR uses the translation from code table C193 and not the code itself.

POPULATION-SERVED-CODE (E0747) identifies the student population for which a service has been designed or is intended. It does not necessarily identify the program eligibility of the students who receive the service.

A service (classroom or non-classroom) will have a single POPULATION-SERVED-CODE value (e.g. “01” for regular students) even when members of other student populations happen to be served. It is only when the service has been tailored for a special student population that POPULATION-SERVED-CODE should be given values that apply to special student populations. If two or more populations are being served, only one should be reported, using the population for which the service was designed.

COURSE-SEQUENCE-CODE (E0948) identifies the unique part(s) of a course when a course is taught during a single grading period or semester or across multiple grading periods or semesters.

The COURSE-SEQUENCE-CODE identifies how the course was taught to the student during the school year, or in the summer. The COURSE-SEQUENCE-CODE identifies the order in which the course was scheduled in the class scheduling system.

NON-CAMPUS-BASED-INSTRUCTION-CODE (E1072) indicates that a course was offered for class credit or student achievement, but 1) was not taught by a school district/charter school employee or a contracted teacher, or 2) was taught by a school district/charter school employee or a contracted teacher at a facility other than the campus where the student is enrolled. Examples include but are not limited to college based instruction, non-district teacher, non-campus teacher, internet based instruction, and Texas Virtual School Network (TxVSN).

The following information expands on the NON-CAMPUS-BASED-INSTRUCTION-CODEs to better explain the intent of each code.

- 01 - College Campus Based Course - College course (usually a dual credit course) is taught either on a college campus or a high school campus by an instructor not employed by the LEA. College courses taught on a high school campus by a LEA teacher with college credentials cannot be coded with NON-CAMPUS-BASED-INSTRUCTION-CODE 01.
- 02 - Electronic/Internet/Correspondence Based/Video Conferencing Course - Any course that is taught not using an actual teacher (ROLE-ID 087 or 047) in the classroom where the student(s) meet for the class. Examples include internet delivered curriculum, academic instructional software programs, video instruction (live or recorded), online courses, etc.
- 03 - Non-District Teacher Providing Classroom Instruction Services - This course is taught by a teacher that is employed by another school district/charter. The “classroom” could be at any suitable location. Do not use this code for reporting college instructors.
- 04 - Texas Virtual School Network (TxVSN) Online Schools program (Formerly Electronic Course Program (eCP)) - This is a full-time virtual program available only to eligible students in grade levels 3 - 12 who are enrolled in an eligible LEA participating in the program. For additional information and rules refer to the Student Attendance Accounting Handbook. In order for a school to receive state funding for students enrolled in the TxVSN online school, all TxVSN Online Schools program course sections offered to students must be reported with this code.
- 05 - Texas Virtual School Network (TxVSN) Statewide Online Course Catalog - This program provides a supplemental statewide online course catalog of high school, advanced placement, and dual credit courses to eligible students in grade levels 9 - 12 who are enrolled in the LEA. For additional information refer to the Student Attendance Accounting Handbook. In order for a school to receive state funding for students enrolled in courses offered through the TxVSN statewide course catalog, all TxVSN Statewide course catalog course sections offered to students must be reported with this code.

- 06 - Non-Campus Teacher Providing Instruction at Another District Facility - These courses are taught in the district at a location that does not have its own campus number. An example of this would be when the CTE program courses are all taught at a central CTE location that is not eligible for its own campus number. These teachers are not associated with any other campus in the LEA.
- 07 - Juvenile Justice Alternative Education Program (JJAEP) - TEC 37.011 - These courses are always taught at a JJAEP that has been established in accordance with TEC 37.011, and are taught by teachers that are hired or are paid for by the JJAEP.
- 08 - Credit by Exam - This code reflects those courses for which a student earned credit through the official “credit by exam” process.
- 09 - Out of District DAEP Program - This code reflects those courses that a student is assigned to while placed in a DAEP that is physically located in another school district or charter school. While this code is similar to the “Non District Teacher” code 03, it is limited to those instances of a student attending a DAEP that is physically under the control of another school district or charter school.
- 10 - Non-District PE Substitution Program (Limited to Service IDs PES00008 - PES00011) - The use of this code is limited to those cases where the LEA has authorized a student to earn PE credit by participating in a physical education activity that is not offered by the LEA. These include such things as gymnastic organizations, etc.
- 11 - Optional Flexible School Day Online Dropout Recovery Program - TEC 29.081 (e-2) – This code is to be used when a dropout recovery program is offered through an internet based online program. Among other provisions, online dropout recovery education programs are specifically required to:
 - include as part of its curriculum credentials, certifications, and other course offerings that relates directly to employment in the state;
 - provide an academic coach or local advocate for each student;
 - use an individual learning plan to monitor each student's progress, and
 - track the number of minutes the student is receiving instruction online.
- 99 - Other - The use of this code is limited to those situations where no other Non-Campus Based Instruction code listed above applies and the teacher, if applicable, in the classroom is not employed by or under direct contract to the LEA. The use of Non Campus Based Instruction Code 99 should be rare.

PK-CURRICULA (E1579) Indicates curricula used in the district's pre-kindergarten program section TEC 29.1532(c)(6).

PK-CURRICULA is reported as part of the ECDS collection. It is only reported for course sections that utilize the Pre-Kindergarten SERVICE-ID “01010000” (Pre-Kindergarten). See code table C206 for curriculum options.

Description

The CalendarDateExtension Complex Type represents a day in the school calendar.

Reporting Requirements

For the PEIMS Collection, the CalendarDateExtension Complex Type is only reported in PEIMS Submission 3.

Texas Education Code 25.081 requires that schools operate a school year for each campus that includes 75,600 minutes of school day operation over the course of the school year. TEC 42.005 contains provisions for certain groups of students to attend school on the basis of Instructional Minutes; 32,400 for Prekindergarten and 43,200 for dropout or at-risk student programs. Open enrollment charter schools approved prior to January 1, 2015 are permitted to operate on the basis of a 180-day calendar instead of 75,600 minutes.

The collection of the data on the CalendarDateExtension Sub-Category is limited to the days that students are planned to attend school and the days that are sub-planted with a waiver and the students do not actually attend school either for a partial day or a full day. Do not report school holidays, such as spring break, weekends, or any other time that staff and students are not expected to be at school. Do not include staff work days that are not related to exercising the option of using a staff development waiver in lieu of a student instruction day.

Because schools that operate a standard instructional program (INSTRUCTIONAL-PROGRAM-TYPE 01) are required to operate a school year consisting of at least 75,600 school day operational minutes, the sum of the SCHOOL-DAY-OPERATIONAL-MINUTES and the SCHOOL-DAY-WAIVER-MINUTES should add to at least 75,600 minutes.

Each campus that reports at least one student in attendance during the course of the school year must also report school calendar data.

Per TEC 25.081(f) a school cannot plan on Memorial Day being an operational day or student school day when building the calendar(s) for a campus and then ask for the waiver.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

id is an XML generated XML ID associated with this complex type.

CALENDAR-DATE (E1168) is the month, day and year of the calendar date.

CALENDAR-EVENT (E1169) is the type of scheduled or unscheduled event for the day. For example: Instructional day, Teacher only day, Holiday, Make-up day, Weather day, Student late arrival/early dismissal. In order to derive the attendance rates, use Instructional day, Make-up day, or Teacher Only day enumeration values.

SCHOOL-DAY-EVENT-CODE (E1582) is the type of scheduled or unscheduled event for the day. For example: Student Instructional day or Waiver day.

CALENDAR-WAIVER-EVENT-TYPE (E1570) indicates the type of state approved waiver.

SCHOOL-DAY-OPERATIONAL-MINUTES (E1571) indicates the minutes that a campus operated on a particular school day for the purpose of student instruction.

SCHOOL-DAY-OPERATIONAL-MINUTES is only reported for Instructional Program Types that are following 75,600 Operational Minutes.

SCHOOL-DAY-INSTRUCTIONAL-MINUTES (E1599) indicates the portion of the school day in which instruction takes place along with certain other exceptions and are considered a subset of operational minutes.

SCHOOL-DAY-INSTRUCTIONAL-MINUTES is only reported for Instructional Program Types that are not following 75,600 Operational Minutes or a 180-day school year calendar.

TEC Section 25.081, specifies that a school district may not provide student instruction on Memorial Day. If a school district would be required to provide student instruction on Memorial Day to compensate for minutes of instruction lost because of school closures caused by disaster, flood, extreme weather conditions, fuel curtailment, or another calamity, the commissioner shall approve the instruction of students for fewer than the minimum number of minutes required by TEC 25.081. A school must apply for a waiver(s) to exercise this option of the commissioner of education waving student instruction on Memorial Day.

SCHOOL-DAY-WAIVER-MINUTES (E1572) indicates the waiver minutes for the campus and calendar date.

Refer to the [Calendar Waiver Scenarios](#) table for additional information about reporting waivers and school day minutes.

Reporting Requirements

Texas Education Code 25.081 requires that schools operate a school year for each campus that includes 75,600 minutes of school day operation over the course of the school year. The collection of the data on the ReportingPeriodExtension Sub-Category identifies the first calendar day and last calendar day of each six-week reporting period for each campus, six-week reporting period, and instructional track. For example, if the first day of a particular reporting period was planned as a student day and is turned into a non-student day because of the use of a waiver, such as a staff development day waiver or a missed instructional day waiver, then that day will be reported as the beginning date of a particular reporting period. The same will be true if the last day of a particular reporting is sub-planted with a waiver for either a partial day or full day of school.

Because schools report the school year for a particular campus to TEA in six approximately equal reporting periods, each LEA school campus should have six (6) strings of XML data for the CalendarDateExtension showing the REPORTING-PERIOD-INDICATOR-CODE (E0934), REPORTING-PERIOD-BEGIN-DATE (E1568), REPORTING-PERIOD-END-DATE (E1569), and NUMBER-DAYS-TAUGHT (E0935). This string of data will be repeated for each instance of a unique instructional track by indicating the INSTRUCTIONAL-TRACK-INDICATOR-CODE (E0975). For example, if a school campus operates two different instructional tracks, then the school will report a total of twelve (12) strings of XML data for the CalendarDateExtension.

Refer to the Student Attendance Accounting Handbook for additional details and rules related to operating a campus for 75,600 minutes per school year.

Each campus that reports at least one student in attendance during the course of the school year must also report school calendar data and reporting period data.

Special Reporting Requirements

Currently, there are no special reporting requirements.

Business Rules

id is an XML generated XML ID associated with this complex type.

**EducationOrganizationReference Complex Type

The Education Organization that defines the curriculum and courses offered - often the LEA.

**EducationalOrgIdentity Complex Type

The EducationalOrgIdentity Complex Type provides user information to look up and link to an existing educational organization record in the receiving system.

CAMPUS-ID (E0266) indicates the unique campus identification number registered with the Texas Education Agency (TEA). It is the linking of DISTRICT-ID with the campus identification number.

The campuses reported on the SchoolExtension Complex Type must match a campus registered with the TEA for the current year.

A campus must not be reported with a number greater than 698.

The first 6 characters of CAMPUS-ID must match the value of the DISTRICT-ID in the LEA's LocalEducationAgencyExtension Complex Type.

SCHOOL-YEAR (E1093) is the identifier for the school year for which the attendance data are reported.

SCHOOL-YEAR uses the translation from code table C193 and not the code itself.

REPORTING-PERIOD-INDICATOR-CODE (E0934) indicates the period for which the attendance data are being reported.

REPORTING-PERIOD-BEGIN-DATE (E1568) indicates the first day of the reporting period.

REPORTING-PERIOD-END-DATE (E1569) indicates the last day of the reporting period.

INSTRUCTIONAL-TRACK-INDICATOR-CODE (E0975) indicates a unique campus calendar of school days for a particular group of students on a campus. Students with the same instructional track have the same number of days taught in a particular reporting period at a campus.

It is required that a campus report different instructional tracks if the number of days taught for a group of students is different in a particular reporting period. While TEA prefers that the INSTRUCTIONAL-TRACK-INDICATOR-CODEs be used in sequence, the choice of the instructional track is at the discretion of the campus.

Example: A campus that waives days of instruction for grades three and five will report an INSTRUCTIONAL-TRACK-INDICATOR-CODE of "00" for students in grades kindergarten through two and four, and an INSTRUCTIONAL-TRACK-INDICATOR-CODE of "01" (different calendar) for grades three and five.

Campuses which make use of multiple instructional calendars are considered to have more than one instructional track. Anytime the NUMBER-DAYS-TAUGHT for a particular six week reporting period at a campus are different, then there must be an additional INSTRUCTIONAL-TRACK-INDICATOR-CODE for that six-week reporting period. The INSTRUCTIONAL-TRACK-INDICATOR-CODE is used by TEA to differentiate between multiple instructional calendars when calculating Foundation School Funding.

INSTRUCTIONAL-PROGRAM-TYPE (E1600) indicates the type of attendance program associated with this calendar.

Each unique instance of a campus calendar track must be associated with an INSTRUCTIONAL-PROGRAM-TYPE. For example, if a campus has both a pre-kindergarten calendar track following 32,400 instructional minutes and a regular

program track following 75,600 operational minutes, then each calendar will be reported separately with a unique INSTRUCTIONAL-PROGRAM-TYPE.

Please note that a charter school campus that was issued to operate prior to January 1, 2015 has the option of following 75,600 Operational Minutes or 180 day school year.

NUMBER-DAYS-TAUGHT (E0935) indicates the number of days of instruction offered, as shown on the school calendar, during a particular reporting period.

****CalendarDateReference Complex Type**

The CalendarDateReference Complex Type references the days associated with the grading period.

ref is an XML generated XML IDREF that references the object associated with this object.

The CalendarDateReference, located in the ReportingPeriodExtension, is considered *unbounded*. What this means is that the XML Name can be repeated within the ReportingPeriodExtension tag. Example 1 demonstrates the concept of an “unbounded” element. This structure is how the CalendarDateReference should be reported.

**In order to determine if an element is unbounded you can look at the XSD for the text maxOccurs=” unbounded”.

Description

The SSAOrgAssociationExtension Complex Type identifies the ESC/LEA fiscal agents and the ESC and/or LEA member(s) for each type of shared services arrangement (SSA) that exists among two or more ESCs and or LEAs.

Shared services arrangements are used by LEAs and/or education service centers to share personnel or services, when one entity cannot justify the cost of employing a specialized staff member, but a group can justify a portion of the salary. Specific guidance is provided in the FAR module of the Financial Accountability System Resource Guide and Texas Education Data Standards for LEAs (as government entities) to record and report the results of operations of shared service arrangements.

This guidance does not apply to non-profit charter schools since they are 501(c)(3) entities rather than government entities; therefore, non-profit charter schools are required to record the results of shared service arrangements within their own financial statements. If one entity maintains the accounting transactions for all entities sharing services, that entity must provide the necessary accounting information to each of the participating entities to record transactions.

However, any charter schools with a governmental charter holder (city, university, community college, etc.) are still required to follow governmental accounting standards and would follow shared service accounting guidelines.

The fiscal agent for a particular SSA does not report an SSAOrgAssociationExtension Complex Type for each shared services arrangement member district. Each ESC and LEA, whether a fiscal agent of, or a member of, an SSA, reports its own SSAOrgAssociationExtension Complex Type. This is different from the SharedServiceArrangementExtension Complex Type (Finance Category) reporting, where only the fiscal agent reports the financial expenditures for each of the SSA members.

The SSA data is used by TEA to match SSA participants and fiscal agents for financial reporting purposes. This data figures into the “maintenance of effort” (MOE) for special education spending thresholds for both state and federal allotments. The Texas Education Agency also uses the SSA information reported through this complex to check for consistent SSA financial reporting between Fiscal Agents and Member Districts.

Reporting Requirements

PEIMS Submission 1:

The SSAOrgAssociationExtension Complex Type must be reported by each ESC and LEA which participates in or is a member of an SSA. This includes the ESCs and LEAs serving as fiscal agents for a particular SSA.

PEIMS Submission 2:

For each record in the SSAOrgAssociationExtension Complex Type, there must be an ActualExtension Complex Type data record and a SharedServiceArrangementExtension Complex Type data record with appropriate fund codes for the SSA financial reporting.

Special Reporting Requirements

Charter schools do not submit any data through the Shared Services Arrangement Organization Association Complex Type. A charter school cannot be reported as either an SSA member or an SSA fiscal agent.

Texas School for the Blind and Visually Impaired and Texas School for the Deaf do not submit data through the Shared Services Arrangement Organization Association Complex Type.

Business Rules

****LEAReference Complex Type**

The LEAReference Complex Type represents the recipient of the shared services.

****EducationalOrgIdentity Complex Type**

The EducationalOrgIdentity Complex Type provides user information to look up and link to an existing educational organization record in the receiving system.

DISTRICT-ID (E0212) indicates the district identification number registered with the Texas Education Agency. For the purposes of the SSAOrgAssociationExtension Complex Type, the DISTRICT-ID data element identifies the member ESC/LEA that is a member of a particular SSA type identified with the Shared Services Arrangement Type Codes (E0776).

DISTRICT-ID on the SSAOrgAssociationExtension Complex Type must match the value for DISTRICT-ID on the LocalEducationAgencyExtension Complex Type.

SHARED-SVCS-ARRANGEMENT-TYPE-CODE (E0776) indicates the type of program or service provided by the shared service arrangement.

SHARED SERVICES ARRANGEMENT ACTUAL data must be reported by 1) all school districts, including the fiscal agents that participate in a shared service arrangement, and 2) ESCs which serve as fiscal agents for shared service arrangements.

****TX-FiscalAgentEducationOrganizationReference**

The TX-FiscalAgentEducationOrganization Complex Type represents the provider of the shared service (i.e. the fiscal agent).

****EducationalOrgIdentity Complex Type**

The EducationalOrgIdentity Complex Type provides user information to look up and link to an existing educational organization record in the receiving system.

FISCAL-AGENT-DISTRICT-ID (E0777) is the county-district number of the shared services arrangement fiscal agent registered with the Texas Education Agency.

If the fiscal agent is a county, enter the county number for the leftmost three digits of FISCAL-AGENT-DISTRICT-ID, and enter 000 for the rightmost three digits.

For a fiscal agent, the DISTRICT-ID and FISCAL-AGENT-DISTRICT-ID will be the same.

When the fiscal agent reports its own SSAOrgAssociationExtension Complex Type, the fiscal agent reports a record for each shared services arrangement regardless of whether it participates as a member.

FISCAL-AGENT-DISTRICT-ID is the fiscal agent district ID number. The fiscal agent district is responsible for reporting:

- the actual financial data for the prior school year for the shared services arrangement, and
- personnel, payroll, and responsibility information for all administrative and
- all itinerant employees who are paid by the fiscal agent, whether or not these employees are shared by the member districts.

Member district #1 acts as fiscal agent for a state/locally funded special education shared services arrangement that includes 1 other school district. Expenditures are allocated according to the example in the Financial Accountability System Resource Guide, section 1.3.3. Member school districts receive revenue from various sources (foundation fund revenue, tax revenue, etc.). These revenues are recorded in the General Fund and are to be used as the district deems appropriate with written established guidelines for operating purposes. The monies paid to the fiscal agent may not be identifiable as being from a specific revenue source. Periodically during the year, member school districts pay monies to the fiscal agent.

Member school districts determine the payment amount based on predetermined criteria established in the shared services arrangement agreement.
